

# TRAINING SERVICE STEPS

## HOW DOES IT WORK?

### 1. SCHEDULE 60 MINUTE INITIAL CONSULTATION

We will discuss your goals and concerns, then give you a personalized training plan.

### 2. START THE TRAINING PLAN

We will begin the training package either by coaching in your home or day training.

\*Options will be discussed in initial consultation.

### 3. HAVE AN ENJOYABLE LIFE WITH A WELL-MANNERED DOG

Enjoy the learning process with your dog that will be a pleasure to live with!

## **BASIC MANNERS**

Is your dog a puppy, a teenager, or a little older and needs help with manners? We can help to personalize your dog's training plan based on your goals. Most of these goals consist of basic cues such as sit, down, leave it and others are taught in these sessions. We offer in-home coaching or day training packages for basic manners.

## **BEHAVIORAL CONCERNS SUCH AS FEAR AND ANXIETY**

At times our dogs need a little extra help to cope from experiences that impact them emotionally. We can help with your concerns and goals to help improve your dog's daily life by developing a personalized training package.
