

Parasite

Prevention Rebates!

With the warm weather of summer, it's a great time to make sure that your pet is protected against ticks, fleas, and heartworm disease; and take advantage of the instant rebates available. Parasite prevention is key for the health and safety of both your pet and your family. We recommend protecting against ticks and fleas by administering **Bravecto**, available in a flavor tablet or topical form, once every 3 months. For the prevention of heartworm disease and intestinal parasites, we recommend **Sentinel Spectrum**, a soft chew administered once monthly.

We currently have high dollar instant rebates available on both products!

For general questions and pricing, you can call us at (208) 938-3383 or email us at eac@eagleanimalclinic.com.
