

Enroll Your Dog in Our Clinical Study for Ear Infections

We are looking for dogs to enroll in our clinical study investigating a potential new treatment for the clinical signs of ear infections! We are enrolling pets now!

The study lasts approximately **30 days** and requires **4 visits**. Your dog may receive study-related care at no cost to you, including exams, lab work and the assigned study treatment.

This is a great way to contribute to a possible new treatment and advancing veterinary medicine without compromising much of your time!

To learn more, email us at ajohnson@bradfordparkvet.com, or give us a call at 417-509-8961.

ITCHY EARS?

We are currently seeking canine friends with ear infections to participate in a clinical trial!

- Medication administered in clinic- nothing to give at home!
- 4 quick visits to the clinic.
- No cost to you.
- Clinic credit available upon completion.

Ask our staff for more information!
