## DVM Masterclass

May 18, 2025 | 12 - 4 PM | 4 Hours of CE Available

### **Tanya Donovan, DVM, DACVIM (Internal Medicine)**

#### **Topic: Dietary Management of Gastroenteritis in Dogs and Cats**

Dr. Donovan is a board-certified specialist in small animal internal medicine. She earned her veterinary degree from Tufts University in 2004, completed a one-year internship at Angel Memorial Animal Hospital in 2005, and finished her residency in small animal internal medicine at Tufts in 2008. Afterward, she worked as a clinical professor at Auburn University before transitioning to private practice in Seattle, WA, Burlington, VT, and Portland, OR.

Her clinical interests include interventional procedures like laser ablation of ectopic ureters, percutaneous cystolithotomy, tracheal stents, and urethral stents for tumors. She is experienced in endoscopic procedures, such as bronchoscopy, gastrointestinal endoscopy, rhinoscopy, and cystoscopy.

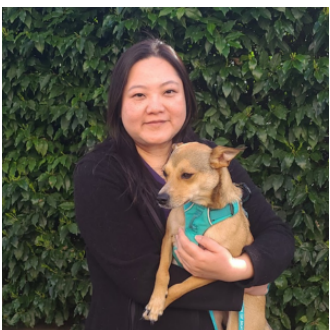

### **Ravi Seshadri, DVM, DACVECC, DABVP, FCCM (ECC)**

#### **Topic: Management of the Acute Abdomen**

Dr. Ravi Seshadri, originally from Pittsburgh, PA, grew up in India and graduated from Madras Veterinary College in 1989. After completing the Educational Commission for Foreign Veterinary Graduates, he worked in a small animal practice in Antioch, CA, and later completed a residency in Emergency and Critical Care in Southern California.

Dr. Seshadri has since worked in both academic and private practice settings, specializing in emergency and critical care, surgical case management, soft tissue surgery, abdominal ultrasound, echocardiography, and minimally invasive procedures like stent placement and pacemaker implantation.

### **Chai-Fei Li, DVM, DACVIM (Neurology)**

#### **Topic: Dietary Management of Gastroenteritis in Dogs and Cats**

Dr. Chai-Fei Li, DVM, DACVIM (Neurology), is a veterinary neurologist and neurosurgeon at the Animal Medical Center of Seattle. Originally from Hong Kong, Dr. Li has lived in the UK and USA, bringing a diverse perspective to her practice. She graduated from the Virginia-Maryland College of Veterinary Medicine in 2013, completed an internship at NC State, and finished her residency at UC Davis, becoming board-certified in 2017. She has served as an Assistant Professor at UC Davis, specializing in complex neurosurgeries. Dr. Li has authored articles on neurological emergencies, brain tumors, and spinal conditions, and aims to advance minimally invasive spinal surgery techniques in collaboration with Dr. Drury.
