This is to inform you that during hours other than the medical staffing hours above, there is no in-house, on-duty, continuous medical staff care. Boarding animals are checked at least twice daily by hospital staff when the office is closed. Hospitalized animals are evaluated daily by staff veterinarians and treatment regimens are continued even when the office is closed. Occasionally some patients may require continuous, 24-hour intensive care which cannot be provided by our staff when the office is closed. Should such care be necessary or desired, our veterinarians refer to the Valley Veterinary Emergency Clinic in Winchester. If such referral is declined, we will not be held responsible for patients which succumb during hours when our office cannot provide the recommended care. Virginia state law requires that we document client notification of our medical staffing hours. Your signature below provides such documentation.
