

NIVES URGENT CARE

ANNOUNCING NEW URGENT CARE SERVICES!

We're adding supplemental urgent care to streamline the emergency care needs of our community. Our new Urgent Care facility is intended to treat pets with minor injuries or concerns in a more timely manner. Any patients in need of more advanced treatment can be quickly transferred to the main NIVES building for additional critical care or 24-hour hospitalization.

We have a dedicated team of Call Center & Triage Specialists available to help clients best determine which level of veterinary care to seek for their pets. Our main, NIVES hospital is conveniently located just across the parking lot and will continue to provide treatment to animals in need of more advanced care or with life-threatening conditions.

NIVES Urgent Care provides outpatient services for your pet. These services are typically non-life-threatening emergencies that are in need of same-day treatment for the best outcomes.

OUR MISSION

The mission of the Northeast Indiana Veterinary Emergency and Specialty Hospital (NIVES) is to provide the highest quality 24-hour urgent, critical, and specialty medicine for small animals. Our hospital and staff are fully committed to enhancing the unique relationship between humans and companion animals by providing the best possible care. We serve the veterinarians and pet owners in this tri-state region, as a referral center for competent, compassionate, and timely veterinary care.

PET OWNERS

EMERGENCY CARE:

If your pet is experiencing a life-threatening emergency, proceed directly to our hospital at 5818 Maplecrest Road, on the northeast side of Fort Wayne. Our hospital is open 24-hours, 365 days a year to assist your pet needs.

SPECIALTY CARE:

We offer appointments in Cardiology, Internal Medicine, Surgery, & Physical Rehab. A consultation can be made by first contacting your primary care veterinarian to arrange the referral then calling our office to schedule your pet's appointment.

VETERINARIANS

EMERGENCY REFERRALS:

For critical care referrals or case transfers, please call our office to speak to one of our doctors to discuss treatment. In the event of a life-threatening emergency, your client can proceed immediately to our facility while your clinic contacts our office.

SPECIALTY REFERRALS:

For specialty referrals, please submit a referral form with pertinent patient information for the specialty of your choice. The forms can be downloaded or submitted directly through our website at nives24h.com. Please advise your pet owners to call our office to schedule their appointment after the referral information has been submitted.

SERVICES

SPECIALTY SERVICES:

NIVES features a team of board-certified specialists who have advanced training in various veterinary medical and surgical disciplines.

You and your pet may be referred to a veterinary specialist if diagnosing or treating your pet's health problem requires specialized equipment and/or intensive medical care. Our hospital features state-of-the-art equipment for fast and reliable diagnostic testing including in-house blood work, digital radiography, CT scan and ultrasound imaging.

NIVES is proud to offer referral appointments in the following specialties:

CARDIOLOGY

INTERNAL MEDICINE

SURGERY

PHYSICAL REHABILITATION

CRITICAL CARE SERVICES:

We employ a committed team of doctors, dedicated solely to emergency and critical care. In 2015, NIVES became the only veterinary hospital in the state of Indiana to be certified as a Level II Critical Care Veterinary Hospital. Certification means we have the expertise, technology and trained staff needed to treat the most life-threatening cases, 24-hours a day. Our advanced diagnostic capabilities, including digital radiography, ultrasonography, electrocardiography and computed tomography allows us to diagnose and treat these complicated medical conditions in a timely manner.

Hospitalized patients are given round-the-clock care by our highly qualified team. Our compassionate experts are here to help you make the best care decisions for you and your pet. We work closely with your primary veterinarian to give you the assurance of 24-hour, expert emergency care. You can have peace of mind knowing that we are here in your time of need, 365 days a year.
