While your pet stays at Warren Woods Veterinary Hospital, we provide quality care. We record important information including your pet's weight, diet, food consumption, urination and defecation. If there are any problems during your pet's stay, one of our veterinarians will examine your pet to diagnose the problem. If your pet should develop any illness while boarding, we request your permission to perform diagnostic tests and if necessary begin medical treatment.

The cost for boarding is \$30.75 per day. This is charged every calendar day. If you pick your pet up by 12:00 noon the last day of boarding, you will not be charged for the last day. If your pet is on daily medication while boarding, you will be charged \$40.50 a day. These costs cover boarding and the administration of medications only. If treatments or tests were necessary, those fees would be additional.

We want to ensure your pet is healthy before boarding here; we recommend an annual comprehensive physical exam and yearly blood health screen. If your pet has any medical problems, please make an appointment prior to boarding, so one of our veterinarians can perform a comprehensive physical exam.
