Our hospital was established in 2008 to respond to the emergency and critical care needs of our patients and families. Red Bank Veterinary Hospital acquired an existing practice in Hillsborough, New Jersey and began serving the community as Red Bank Veterinary Hospital, Hillsborough. Today, our Hillsborough location is proud to provide a variety of specialty services to the Central Jersey area.

OUR SURGICAL SERVICES

Our team of surgeons have undergone years of additional training after veterinary school in order to become a specialist and have used their surgical skills to help hundreds of pets. With access to state-of-the-art equipment, our surgeons perform a multitude of advanced procedures and services.

ORTHOPEDIC SURGERY

From the most common injuries to complicated total joint replacements, our surgeons have the expertise and state-of-the-art equipment to care for your pet.

Common orthopedic procedures performed:

- Tibial Plateau Leveling Osteotomy (TPLO) for cranial cruciate ligament injuries
- Patellar Luxation Correction
- Fracture Repair
- Angular Limb Deformity (ALD) Correction
- Total Hip Replacement (THR) and Femoral Head Ostectomy (FHO) for hip dysplasia and osteoarthritis

SOFT TISSUE SURGERY

Whether your pet comes to us for treatment of cancer, reconstructive procedures following trauma, or an emergency in the middle of the night, take comfort knowing that our surgeons are trained in every aspect of soft tissue surgery.

Common soft tissue procedures include:

- Gastrointestinal Surgery
- Cardiovascular Surgery
- Airway Surgery
- Thoracic Surgery
- Urogenital surgery
- Liver and Gallbladder Surgery
- Abdominal Surgery
- Oncologic (cancer and tumor) Surgery
- Skin Grafts and Reconstructive Surgery
- Amputations
- Head and Neck Surgery
- Hernia Repair

MINIMALLY INVASIVE PROCEDURES

Whenever possible, we diagnose and operate using minimally invasive procedures. These techniques keep your pet more comfortable than some traditional approaches, and often lead to a quicker recovery with less pain.

Common minimally invasive techniques include:

- Arthroscopy for conditions involving joints
- Thoracoscopy for conditions within the chest cavity
- Laparoscopy for conditions within the abdominal cavity

MEET THE SPECIALISTS

DR. LINDSAY NUSSBAUM
DVM, DACVS-SA

Dr. Lindsay Nussbaum was born and raised on Long Island, NY and completed her undergraduate studies at Wesleyan University in Middletown, CT in 2009. She then went on to obtain her Doctorate of Veterinary Medicine from the Cummings School of Veterinary Medicine at Tufts University in North Grafton, MA in 2013. Dr. Nussbaum then completed a year long small animal rotating internship followed by a year long small animal surgical internship at Garden State Veterinary Specialists in Tinton Falls, NJ. She completed a second small animal surgical internship at Long Island Veterinary Specialists in Plainview, NY in 2016. Dr. Nussbaum then went on to complete a small animal surgical residency at Red Bank Veterinary Hospital in Tinton Falls, NJ and received her ACVS board certification in February 2020. Her surgical interests include emergency abdominal surgery and fracture repair.

DR. SARAH KLATZKOW
DVM, Practice Limited to Surgery

Dr. Sarah Klatzkow received her undergraduate degree from the University of Florida in 2014 and her Doctorate in Veterinary Medicine in 2018. Following graduation, she completed a year-long internship in small animal medicine and surgery at Cummings School of Veterinary Medicine at Tufts University. She completed a dedicated surgical internship at MedVet Cincinnati in 2020. Dr. Klatzkow then went on to complete a small animal surgical residency at Red Bank Veterinary Hospital in Tinton Falls, NJ before becoming a full-time team member in 2023.

Availability: Sunday – Friday 8am-6pm

If your family veterinarian refers you to one of our specialists, be sure to call ahead and make an appointment for your pet's consultation.
