

This document lists the **estimated** costs of routine spay and neuter surgeries performed in our clinic. Our surgery costs include the pre-anesthesia blood work – which is very important and required for ensuring the well-being of your pet prior to anesthesia and one pain medication to go home

**These estimates only approximate the cost of the procedures.** It does not include the costs of any additional treatments that may be deemed necessary upon examination. Examples of some of the additional costs - Office visit to establish care, Elizabethan collar, rabies vaccines or other vaccines, additional blood tests– Heartworm, Felv/FIV, microchip and placement, anti-nausea medication and/or additional pain medication.

If you have any questions concerning these estimate ranges, please do not hesitate to set up a consultation appointment (\$80) where we can give you pricing specific to your pet.

Be assured that the health and well-being of your pet is our highest concern!
