- Many countries recommend specific products to be used at pre-determined timelines and may require application or administration of medications to be supervised by a veterinarian. Please be sure to contact the USDA for specific guidelines on your travel plans.
- Health Certificates are legal documents and must be accurate and precise. It is extremely important that all research is done and all information made available prior to the time the health certificate is needed. Missing information or failing to meet requirements may result in delay or denial of entry of the pet in question into the country and or added expenses that could affect travel plans.
- Please note: our veterinarians retain the right to deny endorsement of a health certificate if all of the requirements have not been met. **It is the responsibility of the pet owner to obtain and provide information all requirements and any necessary records.**
- Please be aware that the health certificate process can be complicated as well as time consuming. Feel free to contact the USDA Information Hotline for any questions or concerns you might have regarding this process at (202) 720-2791.
