### FOR YOUR PET'S HEALTH

**Medical Requirements:** To insure the protection of ALL pets under our care, the following must be current and there must be no evidence of internal or external parasites (ie. fleas/ticks) on your pet:

**Annual Veterinary Exam**

**Distemper**

**Rabies**

**Annual Fecal Floatation**

**Kennel Cough (dogs only)**

**Canine Influenza (dogs only)**

I understand that my pet will not be admitted to Boarding if the above are not current. I also understand that Merrimack Veterinary Hospital will provide treatment in accordance with the above policy at the owner's expense if evidence of internal or external parasites is noted on my pet during his/her stay.

The boarding staff makes every effort to provide a safe and comfortable environment during your pet's stay. However, there is always the possibility that your pet may sustain an injury. The most common injuries that occur in boarding are bruises, lameness, abrasions, scratches and puncture wounds.

Additionally, certain illnesses and infections can be transmitted by other sub-clinically contagious animals. Animals identified as infectious will either be removed from the boarding environment or isolated to the extent possible.

Minor illnesses can also occur. These include, but are not limited to, intestinal upsets (vomiting or diarrhea), coughing and skin irritations. These types of problems usually resolve with appropriate treatment.

If your pet develops one of these problems, a hospital veterinarian is available to examine and treat your pet. Please indicate your preference by initialing below.

I want the veterinarian to examine and treat my pet. I accept responsibility for any/all costs that may be incurred. This would include an exam charge along with injections, medications, or additional treatments as deemed appropriate.

I do not want any exam or treatment unless given specific authorization.

In the unlikely event that your pet develops a severe or life-threatening illness we will make every effort to contact you. If no one can be reached please indicate your wishes below.

Please perform whatever services the doctor deems necessary for the best care of my pet until someone can be reached. I accept responsibility for any/all costs that may be incurred.

Do not administer any medical treatment other than supportive care until specific authorization is given. Supportive care refers to medications and/or treatments used to alleviate pain, suffering and to stabilize vital signs. I accept responsibility for any/all costs that may be incurred.

Please list any medications or prescription diet (along with diet instructions) that your pet requires
