WHY WE RECOMMEND THIS CARE FOR YOUR PET

RABIES Rabies is a deadly disease that can be transferred from animals to humans. According to the Illinois CDC, in 2017, 58 animals tested positive for rabies in Illinois. The rabies vaccine is required by law in the State of Illinois.

DHP This vaccine protects your dog from Canine Distemper, a contagious and potentially fatal virus that affects the respiratory and nervous systems. It also protects against Canine Parvovirus, a highly contagious viral disease that affects the GI tract and is often fatal, and Hepatitis, a severe and untreatable disease.

FVRCP The FVRCP vaccine protects your cat from Panleukopenia, a deadly viral disease that affects the gastrointestinal tract and weakens the immune system. It also protects against Herpes Virus and Calicivirus, two very common respiratory viruses in cats. All of these viruses can be transmitted through the air or contact.

LEPTO The Leptospirosis vaccine protects your dog against bacteria spread through soil, water, and the urine of infected animals. Lepto is difficult to diagnose and, if not caught early can be fatal. It is a zoonotic disease which means that you can get it too.

4DX TEST 4DX SNAP tests your dog for Heartworms, Anaplasmosis, Ehrlichia and Lyme disease. Left untreated, these diseases can be fatal.

FECAL PARASITE TEST A fecal test can spot the following types of parasites in your pets' gastrointestinal tract: Roundworms, Hookworms, Whipworms, Giardia, Liver Flukes, and Coccidia. These parasites are highly contagious to other pets and humans.

SENIOR SCREEN The Senior Screen is a thorough test that is performed on your pet's blood and urine. It is useful for early detection of kidney and liver disease, diabetes, and thyroid disease as well as other illnesses.

WHAT WE BELIEVE

Exceptional pet health begins with assuring your pet has a strong preventative care plan. We get to know your pet, his/her environment, diet, and favorite activities. We combine this information with a physical exam and create a Health Care Plan that will give your pet a significantly better chance of living a long, healthy life.

Care Credit

Care Credit allows you to pay for services that total \$200+ interest free over a 6-month period of time. For more information and to apply go to: www.carecredit.com.
