

Doggy Daycare

Here at Merrimack Veterinary Hospital we take pride in our daycare program. Our doggy daycare consists of two playgroups, each with two 2 hour sessions, supervised by compassionate and trained staff members at all times. All dogs in the program must complete an evaluation by one of our staff members to participate in daycare; this is to ensure that they are placed in a play group with dogs that have similar personalities and play-styles. Safety is always our main priority in doggy daycare, which is why we always have at least two staff members in our play sessions and a direct line to a full veterinary staff in case of any emergency. Our large fenced in yard provides your pet with a fun and safe way to run, chase, wrestle, dig, and roughhouse with other dogs, as does our indoor play area for days with inclement weather. We understand that pet owners have busy lives. Working, hobbies, and running errands can keep us out of the house for most of the Have peace of mind that your pet is being cared for by placing them in daycare. Not only is participating in a daycare program lots of fun for your furry friends, it also has some pretty great benefits! These include:

- The promotion of regular exercise-to maintain a healthy weight
- Relief from boredom, separation anxiety, and destructive behavior at home
- Development and improvement of socialization with people and other dogs
