

Health Certificate Policy

Our health certificate policy is designed to make the certification process smooth and efficient by setting clear guidelines. By following these steps, together we can better ensure compliance with health regulations, reduce delays, avoid last-minute requests and set each other up for success.

Requirements for Health Certificates

Health certificate requests should be made at least 24 hours in advance

Required Documents and Information

1. A legible Coggins test with a microchip number (if not completed at EVC).
2. Vaccination records for all core vaccines, especially if traveling to Delaware Park, Colonial Downs, Kentucky or Florida.
3. For every Health Certificate, flu and rhino vaccine details are mandatory:
Details for the following, if available:
 - a. Vaccine serial number.
 - b. Vaccine expiration date.
4. Accurate transportation addresses for both the departure and destination, especially if the destination is a home farm.

Logistics of Transportation and Health Certification

To avoid delays, health certificates should be requested when arranging transportation.
