Managing the Costs of Care

At Animal Medical Center of Plainfield, we understand that medical emergencies can be unexpected and that your pet's health is your priority. To support you during these times, we offer financing options through CareCredit and Scratchpay, as well as direct payment acceptance for Trupanion-insured pets. Our team is committed to providing compassionate care while maintaining transparency about costs, ensuring that you have the information needed to make informed decisions about your pet's treatment.

In veterinary medicine, payment is required at the time of service. We recognize financial considerations are an important part of your pet's care, and we will always discuss treatment plans and their associated costs with you before proceeding. Our goal is to provide clear communication and support, so you feel confident in the care your pet receives. Financing options through CareCredit and Scratchpay are subject to approval through third-party providers.
