

Animal Medical Center  
610 Morrison Road, Gahanna, Ohio 43230  
(614)755-4900, Fax: (614)501-9353

## Grooming Admission Form

I understand that all core vaccinations must be current and pets must be free of external and internal parasites upon admission to our hospital. If vaccinations are not current, those vaccinations will be given upon admittance. If the animal does not have record of a negative fecal test within the last year, Animal Medical Center will send a sample to the lab for analysis. If external or internal parasites are observed they will be treated accordingly. All required vaccinations, testing, and treatment will be done at the owner's expense.

***\*\*Patients with fleas will be charged the Flea & Tick Treatment Package\*\****

I understand that grooming includes: anal gland expression, ear cleaning, ear plucking (if needed), nail trim, bath, brushout, and haircut as discussed upon drop off. It is my responsibility to let the groomer or receptionist know if I would like to decline any or all of these services for my pet.
