

NORTH MECKLENBURG ANIMAL HOSPITAL

Advancing Veterinary Education Through Clinical Partnership

**A Proud Clinical Education Partner
of Lincoln Memorial University
Richard A. Gillespie College of
Veterinary Medicine**

At North Mecklenburg Animal Hospital, we are honored to serve as an approved clinical training site for students from Lincoln Memorial University College of Veterinary Medicine (LMU-CVM).

As part of this collaboration, fourth-year veterinary students gain valuable hands-on experience in a real hospital setting, working alongside experienced veterinary professionals in patient care, client communication, diagnostic medicine, and clinical decision-making.

This partnership reflects our dedication to excellence in veterinary medicine and our commitment to helping shape the next generation of compassionate and skilled veterinarians. Being selected as a clinical training partner is a distinction that recognizes our hospital's standards of care, mentorship, and professional leadership.

**North Mecklenburg
Animal Hospital**

Investing in the Future of Veterinary Medicine

Education is an important part of our mission. By mentoring veterinary students, North Mecklenburg Animal Hospital contributes to the advancement of the profession while continuing to provide the exceptional care and service our clients expect.

Our team is proud to foster an environment that encourages learning, collaboration, and clinical excellence for both students and veterinary professionals.

**For Pet Owners.
For Future Veterinarians.
For Our Community.**

Whether you are trusting us with your pet's healthcare or pursuing a career in veterinary medicine, North Mecklenburg Animal Hospital is committed to making a lasting impact through compassionate care, education, and innovation.
