Let's make sure to discuss Wellness Plans!

Our Wellness Payment Plans help your pet get optimal care, with reduced cost, and convenient split billing over 12 months! There is no credit check and the monthly payments are deducted automatically from your checking or credit card account.

Your pets' medical needs change as their bodies age. A Wellness Plan helps manage their evolving health care needs by monitoring vital organ function and detecting problems early, before they become life threatening. All plans also provide preventative care such as vaccines and many even include dental cleaning. Clean teeth don't just prevent bad breath; they also assure longevity through healthier kidneys, liver, and heart. Other Wellness Plan perks include half off future medical evaluations, 25% off spay/neuter surgeries, and even FREE nail trims.

The following are the different plan options for puppies and kittens:
