**PUPPY WELLNESS VACCINATION SCHEDULE**

Congratulations on your new puppy! Protection against common and often fatal diseases requires a series of vaccinations in the first few months of life with yearly boosters thereafter.

**Benefits of the Wellness Program**

- ◆ Complimentary monthly bath for 1 year
- ◆ 10% product discount on heartworm prevention, flea control and Purina diet products
- ◆ Complimentary monthly nail trims for 1 year

**Distemper** – Dogs with distemper may suffer coughing, vomiting, diarrhea, along with neurological symptoms. Distemper has a very high death rate.

**Canine Hepatitis** – Hepatitis affects the dog's liver. Symptoms can range from a mild infection to death.

**Parvo & Corona** – Both are intestinal diseases that are highly contagious and life threatening. Symptoms include fever, diarrhea, vomiting and depression.

**Lepto** – A bacterial infection that affects the kidneys. Disability or even death is possible.

**Intestinal Parasites** – Roundworms, hookworms, whipworms, tapeworms, coccidiosis and other intestinal parasites in large numbers can cause blockage, bloody diarrhea and even death.

**Bordetella (Kennel Cough)** – An upper respiratory infection causing a persistent, hacking cough. The disease may last several weeks and is highly contagious. If your pet will be boarding or taken to a groomer, it should be vaccinated for bordetella. This vaccination is not included in the series.

**Rabies** – Contagious viral disease transmitted by saliva of an infected animal, typically raccoons, skunks, foxes and bats
