Additional Electives:

Surgical Laser +\$65.00

With most surgical procedures our doctors recommend our surgical laser. Implicating our surgical laser instead of a scalpel blade reduces pain, bleeding, swelling, and risk of infection.

Pre-surgical blood work +\$99.00

(Required if over 8Yrs old)

We recommend pet's have pre-anesthetic blood testing done which helps our doctors evaluate your pet's health and ability to metabolize anesthetic drugs before the are administered. Blood work is also the best way to detect early underlying medical problems.

Our pre-surgical blood screen tests for:

Anemia blood volume
Infections
Inflammations
Complete blood count
Bone marrow function
Glucose – diabetes

Pancreatic function
Alkalin/phosphatse liver enzyme
Sodium
SGPT – liver Enzyme
Total protein – body condition
Creatinine – Kidney Function

Total Bilirubin – Liver
Calcium – Bone Mineral
Bun Kidney Function
Amylase/lipase – Pancreas enzyme
Globulin – Body immunity

I.V. Catheter Placement +\$45.00

(Required if over 8Yrs old)

IV Catheter Placement allows for a safer procedure. I.V. access is usually needed for anesthesia care, laboring patients, trauma patients, hospital inpatients, patient care requiring emergency administration of medications, fluid resuscitation, administration of blood products, elective administration of intravenous antibiotics, chemotherapeutic agents, or other treatments.

Home Again Microchip +\$48.00

This is a small, sterile microchip (about the size of a grain of rice) that is implanted under the skin between the shoulder blades. It is a permanent form of identification that can aid you in finding your pet if it is lost. Special Features include, a Proactive Pet Recovery Network, Lost Pet Alerts, Personalized "Lost Pet" Posters, 24/7 Emergency Medical Care, Online Medical Information.

Nail Trim & Sanding +\$25.00

DENTAL PROCEDURE

I give Crest Hill Animal Hospital permission to extract any teeth deemed necessary by the veterinarian. I also understand that dental extractions are an additional cost to me as well as any pain medication the veterinarian proscribes.

I would like the veterinarian to contact be prior to extracting teeth.

By signing below I authorize Crest Hill Animal Hospital to perform the procedures and treatments listed above while my pet is anesthetized. I understand that there are risks involved in any anesthetic procedure. I understand that unforeseen conditions may require an extension of a particular procedure if deemed necessary in the judgment of the veterinarian. I also authorize the veterinarian to administer and prescribe pain management medication for my pet and understand that any and all "refills" of pain medication must be authorized by a veterinarian.

By Signing below I am aware that if my pet is being spayed today and is either in "heat" or pregnant there will be an additional charge for services. I understand that if my pet is pregnant and I am requesting to continue the spay procedure; I am giving full consent to terminate the pregnancy.
