

Buyer's Guide

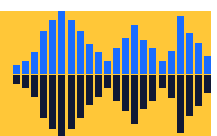

Mentimeter puts listening at the core of leadership through interactive presentations. No longer do the most dominant, loud voices in the room get their way. We make it easy to listen together, make decisions together and improve together. With Mentimeter you can build better relationships, better organizations and more inclusive environments by listening more to every voice, not just the loudest.

EVENTS

Opting for Mentimeter Enterprise allows all team members to have access to Mentimeter Pro features and benefit from scalable discounting. Mentimeter Enterprise encourages an inclusive and interactive environment in your organization through unlimited access to all interactive features with added customization options, ownership and collaboration.

Mentimeter provides a holistic approach to presentations allowing you and your team to engage before, during and after a presentation. Spark discussions, collect feedback and increase engagement in your organization.

Why Mentimeter Enterprise & what can it do for your organization?

Increase collaboration and knowledge sharing

Encourage participation and increase attentiveness to collect diverse and varied opinions on different topics. Work towards a common goal where everyone can contribute and collaborate but save time and effort by sharing presentations between team members.

Create an inclusive organizational culture

Introducing an organization-wide Enterprise plan means that you are committed to creating an environment where every individual is valued and appreciated. Mentimeter facilitates discussions and two-way dialogues to create a safe space for all voices to be heard and helps to build a foundation for strong company culture.

Boost productivity and learning

Energize sessions and boost morale by interacting with and engaging colleagues. Interactive presentations are great to speed-up decision making, save time through interactive polls and make presentations inclusive and fun.

Identify pain points and knowledge gaps

Find out what people in your organization really think. Identify common themes that resonate with the team and areas for improvement. Make data-driven decisions and yield great results.

Improve communication

A Mentimeter presentation means that every person can be part of the conversation. It makes sure that no opinion goes unheard and everyone can contribute, increasing efficiency and avoiding any silos. Anonymous contributions mean that every person can voice their opinion without the fear of retribution and opinions can be gathered in an unbiased, democratic way.

Ensure brand consistency

Share custom company themes and templates within your team or company-wide and add your logotype to create professional-looking slide decks. Team members can easily access the themes which ensure style consistency throughout the organization and saves time when creating new presentations.

Continuously improve

Capture important data and gain valuable insights in presentations. The data can then be analyzed and used to track trends over time to help continuously improve. Mentimeter Enterprise allows you to export data to excel so you can deep dive further into the audience responses and look at historical data to see how answers have changed over time and perform a more detailed comparative analysis.

Build trust

Anonymous Q&A's and interactive question types boost engagement while helping to create a more open and honest organization. Give employees the freedom to voice opinions in a democratic way and increase transparency with answers to build trust and overall organizational health.

Key Enterprise Features

Mentimeter Enterprise gives you the power over your subscription. You'll have more time to focus on the things that matter leaving us to deal with the admin work.

Centralized administration and payment

Streamline payments and consolidate billing to create standardised processes making it easier to keep track of payments.

Team Management

Create teams and subteams to make collaborating easier than ever. Share presentations, templates and themes within the team and account administrators can set default branding and settings for your team's presentations.

Dedicated Support

Whenever you or your team may need help, we are there to help you with prioritized support via chat and emails. Speak to one of our talented team members whenever you have product questions.

Additional Security

Additional security includes customised control, SSO, and vendor documentation upon request for large scale agreements.

Centralized control

Centralization allows owners to determine who has access to your Mentimeter subscription. Access to Mentimeter Enterprise can be granted based on need by up to several administrations. This allows easy team management and accessibility within subscriptions. Admins can invite, downgrade and change roles of users within their organization and make sure those who need Mentimeter can get access in a secure and efficient way.

Dedicated Relationship Manager

Your Relationship Manager will help you get the most out of your Mentimeter account and ensure utilization internally to help reach your goals. They will help your team become Menti experts providing content for team onboarding, plan roll-out and communication, handle commercial discussions during renewals or adding more licenses. They'll also provide additional analysis and insights into your Mentimeter usage to maximise the effectiveness of your subscription.

Scalability

As Mentimeter is fully web-based, you can quickly and easily roll it out throughout your entire organization, inviting users into your subscription and reassigning access. It is easy to scale the product use and can make add-ons to the account at any time.

Scalable discounts

Opting for Mentimeter Enterprise allows all team members to have access to Mentimeter Pro features. 10 users within an Enterprise subscription is less than 10 individualised pro licenses. As your user volume increases, the scalable discount will be more impactful and multiyear agreements offer an even higher discount.

Templates just for you

Here we have curated some ready-to-use complete slide decks. You can simply add them to your account, edit and tailor them to fit your next presentation session.

Don't forget on an Enterprise account you can add your company logo and brand to the presentation to ensure brand consistency and create polished slide decks. All of these presentations can be used for remote teams or in face-to-face sessions.

Most Asked Questions

How can you change (distribute) licences and what happens to those who are downgraded?

As an admin, you can determine who has access to your Enterprise Subscription and can have several admins. As Mentimeter is fully web-based, redistributing licenses is easy and fast. To redistribute licences, refer to our help article with clear instruction on how to reassign access within your team. Users who are downgraded and move out of our Enterprise subscription will still have access to Mentimeter within a free account. They will still have access to their personal presentations, however no longer able to access shared content.

How do I share a presentation with my colleague?

It only takes a few seconds to share a presentation with a colleague. Follow this help article to see how.

What's included in branding pro vs enterprise?

Mentimeter Pro allows access to all available question types and quizzes. You can customize presentations using branding and logo incorporation. Mentimeter Enterprise allows multiple users to be consolidated into one centralized subscription. Those users have access to all Mentimeter Pro features including collective benefits like knowledge sharing, license redistribution, additional security, subgroups, prioritized support and scalable discounting.

Is it easy to add on licenses?

Yes, you can add on licenses via collaboration with your Relationship Manager.

Can I see my team members' presentations? And can the team members see each other's presentations?

Yes, you can choose to share a presentation with your team. From there, team members can review content and results within your shared presentation.

Is it possible to move personal presentations from one account to another?

To move presentations from one account to another, for example from a Gmail account to a corporate email account. You can simply change your email address. By doing so, all content will be saved and transferred into your upgraded account. For more information on how to change your email address, refer to our help article here.

Can we pay with an invoice?

Yes, Mentimeter Enterprise allows centralized payment and option to pay via Invoice.

How do you make a theme default for the organisation?

Contact your dedicated Relationship Manager or refer to the help article.

How many licenses should I buy?

This is what Mentimeter's Relationship Managers and Account Executives are here to help them with, and SDRs! 10 is the minimum threshold, users less than 50 are paired with dedicated support in the form of an RM, 50+ get support from a Customer Success Manager.

Can we integrate with Powerpoint?

We recommend building your whole slide deck in Mentimeter to ensure optimal results but you can integrate with Powerpoint. You can either install the Powerpoint plugin or upload your Powerpoint presentation to Mentimeter.

Can we have one central license that can be used by the whole department/team?

You can have one centralised agreement with licenses to distribute across your team. Each license is personalized but can be redistributed based on need.

Can we subscribe to an Enterprise plan for less than one year?

Mentimeter Enterprise offers paid trials for 3,6 and 9 months.
