English Alphabet Magnets

Activity suggestion: 'I spy'

Place NZTC Alphabet Magnets onto a magnetic board.
Adapt 'I Spy' to the age of ngā tamariki.
For example:

- I spy with my little eye something that starts with 'B'
- I spy with my little eye something round
- I spy with my little eye something that has the colour yellow on it

What tamariki will learn:

- Letter recognition through identifying and naming letters of the alphabet.
- Letter-sound awareness as they begin to connect letters with the sounds they make, building early phonics skills.
- Vocabulary development as they identify and describe pictures.
