B. In addition to the local calling area message charge or message toll charge, a charge applies when a call is billed to a telephone other than the calling telephone or when a report is made of the length of time of, or the charge for the call, or both, prior to the billing of the call. Item 222 INITIAL AND OVERTIME PERIODS AND RATES

A. Message toll rates are quoted in terms of initial and overtime periods. The initial period is the interval of time allowed at the rate quoted for a toll connection between given points. The overtime period is the unit of time used for measuring and charging for time in excess of the initial period.

B. The initial period rates are for connections of one minute or any fraction thereof, and overtime rates are for each additional one minute period.

C. For calls paid for at coin telephones when the total does not equate to an even multiple of $.05 the charges are computed as follows:

- for $.0249 or less the charge is rounded to the next lower multiple of $.05.
- for $.0250 or more the charge is rounded to the next higher multiple of $.05.

Notes: 1. The maximum additional charge per call shall not exceed the Company's non-tariffed long distance message toll service Operator-Assisted station-to-station charge for Collect and Third Number billing. The applicable non-tariffed message toll service Time and/or Charges rate is additional.

2. The Company's applicable non-tariffed long distance message toll service rates and charges shall apply.
