

Notice of Network Change

December 19, 1997
No. SIA-8a

Year 2000

Stentor, on behalf of its Telecommunications Companies, announces that the impact of "Year 2000" on the Stentor networks is being investigated.

Compatibility Impact:

Terminals and networks which exchange date information with the Stentor networks may be impacted if they process this information. Even if there is no change at the interface of the Stentor networks, interconnected terminals and networks may have to be modified to be "Year 2000" compatible.

It is not expected that an amendment to the Terminal Equipment Technical Requirements will be necessary.

If you have any questions on the above, please contact:
