ITEM 206 Semi-Public Telephone Service

ITEM 206.1 Service Description

Semi-Public Telephone Service consists of the provision of individual line service at a pay-telephone set, subject to the availability of facilities. The service is installed, with the Company’s approval, in locations to which both the Customer and the general public have access (but where the furnishing of the Company’s Public Telephone Service is not warranted) and is restricted to outgoing service only. (For service in B.C., minimum daily receipts are guaranteed by the Customer, as specified in Item 206.3B.)

Definitions

For the purpose of this Tariff Item, Semi-Public Telephone Service may be provided through coin telephones, card reader telephones, charge-a-call telephones, or prepaid cash card telephones defined as follows:

“Coin Telephone” refers to a telephone set at which the Customer pays for the message at the time the message is to be sent by depositing the appropriate coins in the coin-collecting device attached to the telephone set.

“Card Reader Telephone” refers to a telephone set at which the Customer bills the charge for the message to a magnetic stripe calling card or commercial credit card, accepted by the Company, where the magnetic stripe calling card or commercial credit card is read by the telephone equipment.

“Charge-A-Call Telephone” refers to a telephone set at which the Customer accesses the operator and bills the charge for the message to a third party number, to a calling card, or as a collect call.

“Prepaid Cash Card Telephone” refers to a telephone set at which the Customer pays for the message at the time the message is to be sent by using an authorized prepaid cash card placed in the card reader of an appropriately equipped telephone.

ITEM 206.2

Conditions of Service

ITEM 206.2A

Conditions of Service - Specific to service in Alberta

1. Semi-Public Telephone Service shall be provided on Individual Lines only.

2. Semi-Public Telephone Service equipment will be provided by the Company. Inside wiring may be provided by the Company on public or private property in locations approved by the Company. Where the Company provides the inside wiring beyond the Network Interface Demarcation Point, the Customer shall pay to the Company full costs incurred for the wiring provided and installed including but not limited to the following costs: material, labour, engineering, trenching and backfilling.

3. To avoid any interruption of Semi-Public Telephone Service to the general public, regardless of whether the Company or the Customer owns the inside wiring, the Customer shall permit the Company to perform all maintenance of the inside wiring at the Company's expense.

4. When the Semi-Public Telephone Service equipment is located on private property, the Company will negotiate with the Customer a reasonable amount of compensation for the space and facilities required for the Company to provide, install and maintain its equipment.

5. The Company shall determine those semi-public telephones which accept prepaid cash card transactions.

6. The Customer is entitled to one free listing in the alphabetical and classified sections of the appropriate Company Directory in Alberta.

7. If the Customer requests Non-Listed or Non-Published Telephone Numbers, standard Tariff rates shall apply for such service.

ITEM 206.2B Conditions of Service - Specific to service in B.C.

1. The Customer must commit to retain the Semi-Public Telephone Service for six (6) months from the date of initial installation.

2. The Company shall review its records every six months to calculate receipts from the Semi-Public Telephone Service. If the period’s receipts are less than the amount of the minimum daily guaranteed rate, the customer shall be required to make up the deficit. This amount shall be payable upon demand. Receipts from the previous period (six (6) months), in excess of the minimum charge for that period, shall be credited against shortages for the current period.

3. The Company will dispatch a coin collector a minimum of once every six (6) months, and more frequently if records indicate that collection is required.

4. Any additional charges, of any nature whatsoever, shall be billed to the Customer. Receipts in excess of the minimum charge shall not be acceptable in payment of such charges.

5. The service shall be liable to suspension and termination in the case of non-payment of account or violation of the Company's regulations under the same General Terms of Service (Tariff CRTC 21461, Items 100 – 124) that govern ordinary Exchange Service.

6. The Company will furnish and display the standard signs it deems necessary to advertise the service.

7. Customer requests for incoming service (as exceptions to outgoing service only) will be granted subject to the availability of facilities. An additional minimum daily guarantee as specified in Item 206.3B.2 will apply where incoming service is provided. A listing in the alphabetical section of the applicable Company directory in B.C. will be provided.

8. The Company will perform all regular maintenance and repair to the Semi-Public Telephone Service equipment and the enclosure during the Company's regular B.C. working hours at no charge to the Customer.

9. The Company will repair damage but reserves the right to terminate service or bill the Customer, if in its judgement, damage frequency and extent is excessive. Receipts in excess of the minimum daily guarantee shall not be acceptable in payment of amounts billed for damage.
