E. CCS7 TRANSIT SERVICES

1. The services contained in this tariff item are for the transit of CCS7 signalling messages which are permitted on existing CCS7 interconnection arrangements.

CCS7 Transit Services provide for the exchange of CCS7 signalling messages via the Company's CCS7 network between two different carriers, i.e. IXCs, CLECs, WSPs, subscribing to the service, conditional on the existence of a business arrangement between the two carriers exchanging CCS7 messages with each other and evidence of this business arrangement being provided to the Company.

An IXC, when interconnected to Incumbent Local Exchange Carrier (ILEC) gateway Signalling Transfer Points (STPs), may subscribe to the Company's CCS7 Transit services.

- (a) Basic CCS7 Transit service is provided between IXCs and CLECs, between IXCs and WSPs and between IXCs conditional on the implementation of direct message trunking between themselves.
- (b) Both parties transiting CCS7 messages via the CCS7 Transit services must subscribe.
- (c) CCS7 Transit to a Competitive LNP SCP service provides only for the exchange of CCS7 TCAP messages with a competitive LNP SCP service provider. Specific functionality associated with a competitive LNP SCP must be obtained directly from the service provider.
- (d) An IXC transiting CCS7 messages from a third party carrier will be charged for each carrier as appropriate.
