

Your support in action

Responding to the crisis in Ukraine

When emergency relief is needed at home or across the globe, TELUS Friendly Future Foundation® can respond, thanks to the generosity of supporters like you. In response to the recent humanitarian crisis in Ukraine and its devastating impact on children, youth and families, we committed \$2 million in grants to registered charities to enable them to address the most immediate needs.

Thanks to your unwavering support, we were able to put funds into action right away to help Ukrainians experiencing war trauma, distribute essential items and provide critical medical services, offer safety to youth at high risk of human trafficking and evacuate children with cancer to receive medical care in Canada. More recently, we have supported agencies providing settlement services to Ukrainians arriving in our communities.

Providing a range of support

“With the support of TELUS Friendly Future Foundation, we have been able to continue to evacuate Ukrainian children with cancer to receive medical treatment in Canada.”

– Brian Macdonald, Executive Director, Aman Lara

YMCA Calgary

Maximizing our impact: Save the Children Canada

Save the Children Canada's Ukraine Crisis Appeal raised funds to directly support children and families in need of warm clothes, shelter, clean water and safe spaces in Ukraine. TELUS Friendly Future Foundation partnered with the organization on a matching donation campaign that helped Save the Children Canada raise an additional \$100,000 to support their appeal in less than 24 hours.

Evacuating Ukrainian children with cancer: Aman Lara

When the war erupted, Aman Lara, made up of military veterans, former interpreters and volunteers, sprung into action to organize evacuation missions to fly Ukrainian children with cancer to SickKids Hospital in Toronto to continue their life-saving treatments. Upon hearing of these heroic efforts, TELUS Friendly Future Foundation reached out to Aman Lara to offer our support to sponsor a flight to bring more children with cancer and their families to Canada. This complicated and highly specialized undertaking offered hope to families experiencing the tremendous stress of having a sick child while being displaced by war. In addition, with your support, the \$150,000 grant we provided was used to evacuate more Ukrainian children with cancer to receive the care they need here in Canada.

Helping Ukrainian families settle in Canada: Ukrainian Youth Unity Council

As displaced Ukrainians arrive in Canada, newcomer and settlement agencies across the country are on the frontlines assisting families integrate and set up their new lives. With a \$20,000 grant, the Ukrainian Youth Unity Council in Edmonton is providing immediate mentorship support, starting in the first few hours and days following Ukrainian newcomers arriving in the city.
