You’re passionate about better patient outcomes. So are we.
By working together, we can improve care delivery across the health continuum.

When it comes to choosing a technology provider for your practice, you deserve a partner who shares your goals and vision and has the right solutions to help you achieve them. A partner who can help optimize your operations so you can focus on what matters most: your patients.

At TELUS Health, we believe that technology can help transform healthcare. So we’re working to make prevention and wellness more accessible to everyone by better connecting physicians to other health professionals, pharmacists and patients. Our digital healthcare expertise is backed by powerful technology, innovative solutions and dedicated customer support to help you on your mission to provide excellence in healthcare.
Like you, we’re specialists in our field.

We’re also the nation’s largest digital healthcare provider.

To date, more than 26,000 Canadian healthcare professionals have chosen a TELUS Health EMR. The reasons are simple: our digital health solutions are designed with physicians in mind to improve practice efficiency, enhance the patient experience and positively impact health outcomes.

Plus, get more from your EMR with our strong ecosystem of services to meet your needs.

Access your EMR on the go with our complimentary TELUS EMR Mobile app.

Enhance your EMR with electronic prescribing, provider-to-provider communications and more.

Help your patients take charge of their health with tools such as patient portals.

Get customized dashboards and advanced analytics to manage your patients with chronic diseases.

Benefit from one provider to power your practice and communications.

We’re here to support your evolving needs by continuing to advance collaboration across the continuum of care.

Turning information into better health outcomes for Canadians.

Choose a partner who’s as passionate about the future of healthcare as you are.
