

# Tailored pharmacy **hardware solutions**

Choosing the right computer hardware and components for your pharmacy is an important decision. Making the wrong choice can lead to expensive downtime, possible security risks, or added costs.

## Your exclusive Kroll™ PMS hardware solution

For over 30 years, Kroll™ has been supporting Canadian pharmacies with expertise and a commitment to customer satisfaction. Now, together with TELUS Health, Kroll continues to support you by providing a tailored, reliable and cost-effective hardware solution for your practice.

## Customized hardware for your practice

You need hardware that meets the specific needs of your pharmacy and workflow. The TELUS Health team helps streamline the installation process by guiding you through the evaluation of hardware, pre-loading the operating system and installing, configuring and testing your Kroll software and required pilots and drivers.

**Todd Winsor,**  
Pharmachoice

“ TELUS Health is our single source for all our pharmacy technology. From monitors, printers and scanners, to our Kroll PMS, TELUS Health ensures everything works smoothly. And, having just one number to call makes it easy for our staff to get support for any questions or concerns they have. ”

## Reliability is key

TELUS Health selects products and rigorously tests them to ensure seamless integration and the highest levels of update for your Kroll PMS.

Our portfolio of competitively priced and compatible hardware components includes:

- Digital signature tablets
- Network components
- Printers
- Scanners
- Servers
- Workstations

## Service beyond installation

Our optional hardware support service gets you a dedicated support team to help troubleshoot problems, submit equipment for repair or answer hardware questions – with just one phone call.
