

Keep your passwords strong and secure

Reduce the chance of having your accounts hacked by setting strong passwords, using unique passwords for different accounts and keeping passwords private.

Did you know? You can make your password stronger and easier to remember by using a phrase or the first letters of each word in a phrase, such as: ICARMP2# for “I can always remember my password 2#”.

This poster is a part of the Smart Social campaign developed by TELUS Wise in partnership with the Canadian Association of Chiefs of Police. Smart Social encourages Canadian youth to be smart on social media, stay safe online and use technology responsibly.
