

ITEM
 201 **Network Recorded Announcements for Customers of Disconnected Interexchange Carriers With Trunk Side Access**

ITEM
 201.1 **Service Description**

This service provides for a network announcement to be activated when an IXC with Trunk Side Access is disconnected from the Company’s network, or otherwise ceases to provide its customers with access to long distance services. The Company will route all calls destined for the network of the disconnected IXC to a recorded announcement. When customers attempt to place calls on the network of the disconnected IXC, the announcement will inform customers that the IXC is no longer in service and direct such customers to contact another long distance service provider to establish service and/or to obtain instructions for making immediate long distance calls via casual dialing.

ITEM
 201.2 **Conditions of Service**

1. A once-only charge, as specified in Item 202.3.1, is assessed for the creation of the announcement capability. This charge is assessed to each IXC having provided to the Company an “Access Customer CARE (Customer Accounts Record Exchange) Profile” as referenced in Schedule 4 of the AGREEMENT SPECIFYING THE PROCEDURES OF THE INTEREXCHANGE CARRIER GROUP.
2. Each time an IXC with Trunk Side Access is disconnected from the Company’s network, or otherwise ceases to provide its customers with access to long distance services, a charge, as specified in Item 202.3.2, is assessed for the activation of the recorded announcement. This charge is assessed to each remaining IXC having provided to the Company, on the date that the announcement is activated, an “Access Customer CARE (Customer Accounts Record Exchange) Profile” as referenced in Schedule 4 of the AGREEMENT SPECIFYING THE PROCEDURES OF THE INTEREXCHANGE CARRIER GROUP.

ITEM
 201.3 **Rates**
