- E. Section 11.2 subsection d) of the License with respect to Rights on Termination shall be amended by inserting the following:

Termination by the Licensor

- (d) notwithstanding that the Licensee has complied with all the terms, covenants and conditions of this Agreement and notwithstanding any other provision herein contained, the Licensor shall have the right to terminate this Agreement, in whole or in part, in the event that the building will be substantially renovated, demolished, reconstructed, altered and/or redeveloped in a way that would make the Licensee's occupancy at the building not possible at any time without incurring any liability therefore upon giving to the Licensee one-hundred-eighty (180) days prior written notice of such termination. Upon expiration of the 180-day notice period the Licensee shall have entirely removed all Connecting Equipment from the building and have made good the premises and building risers where applicable. In the event that a building tenant that requires telecom services will remain in the building beyond the notice period as approved by the Licensor, this agreement will remain in force on a month-to-month basis and will become coterminous with the tenant's termination date.

- F. The License with respect to Health and Safety shall be amended by inserting the following:

The Licensee shall not do or permit anything to be done in the Building, or bring or keep anything therein which is in any way hazardous or obstruct or interfere with the rights of other tenants or in any way injure or annoy them or the Licensor, or violate or act contrary to the requirements of the Licensor's insurers. The Licensee shall not keep in the Equipment Room or the Building any dangerous or explosive or corrosive materials or fluids or batteries or other goods containing dangerous, explosive or corrosive materials or fluids. The Licensee shall not use or keep in the Equipment Room or the Building any inflammable or combustible fluid or material other than limited quantities thereof reasonably necessary for the operation of the Licensee's business. The Licensee shall not, without the Licensor's prior written approval, use any method of heating or air-conditioning other than that supplied or approved by the Licensor. The Licensee shall co-operate with the Licensor in the holding of fire drills and in practicing building evacuation procedures. **By signing this Telecommunications License Agreement, the Licensee confirms that it has an appropriate health and safety program in place for its workers, subcontractors and**

other invitees for whom the Licensee is responsible at law and that such a health and safety program includes suitable training for the work carried on by the Licensee at the Licensor's Building. This specifically includes work within the main electrical room and other electrical rooms where high voltage hazards exist.
