16 and over	48

D. CONDITIONS

1. The analogue NTSC service is for carriage of full time local broadcast-quality video and audio signals associated with the video signal. Transmission of other signals is not permitted.
2. The program signal transmission associated with each video channel are provided in the same direction as the video signal.
3. The service is provided subject to the availability of suitable local facilities.
4. When it is necessary for the Company to install special equipment or to incur an unusual expense to establish service, the customer shall pay an additional charge, based on the equipment installed and the unusual expense incurred.

Note: The service charges applicable to customers who qualify for bulk discounts are:
 Original Order \$500.00
 Additional Order(s) 100.00

421 FULL-TIME LOCAL BROADCAST-QUALITY VIDEO TRANSMISSION CHANNEL SERVICE (Continued)

D. CONDITIONS (Continued)

6. The local video transmission channel service is provided in the following configurations:
 - for analogue NTSC from service point to service point, or
 - for analogue video signal from service point to the Television Operating Centre (TOC), for circuit monitoring, switching to other local or inter-exchange video transmission channels, as per customer request.
7. Distance measurement for the purpose of calculating channel distance is measured in airline mileage (a) from the first service point to the serving wire centre, between serving wire centres, if applicable, and from the serving wire centre to the second service point; or (b) from the service point to the serving wire centre, between serving wire centres, if applicable, and between the serving wire centre and the TOC.
8. Local video transmission channels are available within an exchange.
9. The analogue NTSC service is designed to provide end-to-end transmission of a standard NTSC analogue video signal, through company provided equipment.
10. A termination charge of one-half of the charges remaining for the unexpired portion of the contract is payable to the Company in a single payment at the time of termination of the contract.
11. Services provisioned under an existing Special Facilities Tariff may migrate to this service, as per the following conditions:
 - (a) Applicable service charges and/or termination charges will be waived if the contract length remains unchanged.
 - (b) The termination charges for the current service will be reduced by one half of the new committed revenues if the contract length is modified. The maximum reduction in termination charges would result in a total waiver of termination charges for the current item.
12. The service is available on a monthly basis, may be contracted for periods of from one (1) through ten (10) years, or on a seasonal service basis for 3, 4 or 5 year terms only.
13. A bulk discount is available based on the number of channels which the customer has connected between the same two transmission points. The bulk discount is available to customers on a monthly or contracted basis.
