
INDUSTRY ADVISORY

Network-to-Network Interface Disclosure

April 12, 2001

No. TIA-2001-02

Subject:

**Network-to-Network Interface for Toll Interconnection
– Toll-Free Call Routing to APLDS**

TELUS announces the planned replacement of the current network interface specification for routing Toll-free calls destined for Alternate Providers of Long Distance Service (APLDS). This interface is utilized to route Toll-free calls that have originated on the TELUS network or have been sent to the TELUS network and require routing to APLDS, using ISUP trunking from the TELUS network to APLDS that offer Toll-free services. TELUS will migrate APLDS from the current interface specification, a modified version of TR-NWT-000317 commonly called TR-317+, to the replacement interface specification which is based on TR-NWT-000394 (TR-394) as defined for Canadian industry use. TELUS will comply with the CRTC Industry Steering Committee Network Working Group specification for this interface. This specification is currently being finalized for Canadian industry use.

Compatibility Impact:

The interface requirements are specified in the document referenced under “Documentation”.

Documentation:

Refer to NTCO125c on the CRTC web site for the draft version of this specification at www.crtc.gc.ca/cisc/eng/cisf3d0.htm.

Disclaimer

TCI reserves the right to modify the interface described in this Advisory for any reason including, but not limited to, ensuring that it conforms with standards promulgated by various agencies from time to time, utilization of advances in the state of the technical arts, or the reflection of changes in the design of any equipment, techniques or procedures described or referred to herein.

TCI shall not be liable for any damage or injuries incurred by any legal person or persons, including but not limited to corporations, arising directly or indirectly from a design incompatibility with the network, or any cause whatsoever.

This Advisory describes telecommunications services in generic terms only. This Advisory shall not be interpreted as a commitment by TCI to offer a specific service, nor as a description of specific service offerings. TCI offers services only on the basis of publicly filed tariff descriptions. These tariffs provide the only description of services offered by TCI.
