

Medesync EMR

Help elevate your level of care with an advanced, web-based EMR.

Designed by a physician for physicians, Medesync is a bilingual, web-based practice management solution that's fast, easy-to-use, customizable and accessible anywhere you have an internet connection.

Tailored to your needs.

Easily customize your patient summary, clinical notes and create your own electronic forms.

Simplify your process.

Save time with built-in templates to pre-populate forms, clinical notes, prescriptions, bills, and more.

Optimize scheduling.

Quickly schedule appointments, automatically transfer patients from the waitlist and send appointment booking confirmations.

Efficient obstetrical follow-ups. ☆♥

Complete obstetrical visits with unlimited details that can be printed, mimicking MSSS forms.

Say goodbye to duplicates. ☆

Retrieve patient name and information directly from the RAMQ database and accelerate appointment creation.

Benefit from multiple connections. ♥

Efficiently exchange data with government systems from your EMR such as DSQ, APSS, RVSQ, Quebec Vaccination Registry and CNESTT.

Stay connected in the clinic and on the go. ☆♥

Remotely connect to your EMR and provide care on the go – right from your mobile device, with our complimentary TELUS EMR Mobile app.

Increase clinic efficiency and improve the patient experience.

Optimize your workflow, increase collaboration with other healthcare professionals and engage your patients in their own care with powerful tools and services that integrate with your Medesync EMR.

Electronic prescriptions renewals

Process renewal requests from pharmacists directly from your EMR while feeding the DSQ.

Provider-to-provider communications

Exchange and store unlimited digital and eFax communications with other healthcare professionals with MedDialog.

Integrated billing services

Select from pre-populated billing codes and electronically transfer data from your EMR to your billing agency or RAMQ.

Online appointment booking

Let patients book their own appointments online and sync schedules with your EMR.

Automated appointment reminders

Reduce no-shows with customizable patient appointment reminders that can be sent by email, text or phone.

Digital patient forms

Have patients complete forms online before they arrive or on a tablet in your clinic with information imported into your EMR.

Patient check-in kiosk

Help patients manage their own check-in and update personal information at a kiosk in your clinic.

Customizable patient portal

Stay connected to your patients and offer the convenience of private messaging and online appointment booking.

**You're passionate about better patient outcomes. So are we.
By working together, we can improve care delivery across the health continuum.**

Turning information into better health outcomes for Canadians.
