

1 POLICY STATEMENT AND PURPOSE

ICHM programs employ a range of assessment tasks tailored to individual subjects to build knowledge, skills and application in context across each qualification. Assessment tasks are based on a number of assessment principles:

- Assessment promotes student learning and engagement with subject content and delivery
- Assessment is aligned with the subject learning outcomes and delivery
- A variety of assessment tasks are used to help students demonstrate achievement of learning outcomes and to minimise the disadvantage that some students could suffer from a restricted use of different assessment methods
- Assessment is used for both formative and summative purposes
- Assessment is clear on purpose, expectations, requirements, and criteria
- Assessment methods are valid, and reliable
- Authentic assessment is the recommended type of assessment where possible
- Assessment processes allow for students to receive timely feedback in order to identify and implement improvements in their assessment performance.

2 POLICY DETAILS

Each subject is formally assessed according to the assessment method, timing and weighting as specified in the section Student Assessment of each subject statement.

By the end of the first teaching week in a subject, the study guide will be available to each student via the Teams subject site for on campus students and the LMS for online only students. The study guide contains information of assessment methods (including information of the scheduling of assessment and the contribution of each assessment to the final grade) and what is considered a realistic percentage of non-original work.

There will be no more than four assessment points in any subject. Individual assessment points may be scaffolded or provided in parts with the approval of the Academic Director.

The assessment activities in any subject do not total more than 4,500 words for undergraduate awards and 6,000 for postgraduate awards. In this calculation each hour of a written exam is equivalent to 1,000 words for undergraduate awards and 1,500 words for postgraduate awards. This calculation may be changed by the Academic Committee for an individual piece of assessment and will be displayed on all documentation referring to that assessment.

At least 20% of total assessment in a subject will be administered within the first half of the study period for the subject.

No assessment point in an undergraduate subject will be worth more than 40% of total assessment for the subject unless an exemption is sought from the Academic Board. No assessment point in a postgraduate subject will be worth more than 60% of total assessment for the subject unless an exemption is sought from the Academic Board.

Assessment points in each subject are cumulative. A student is required to achieve 50% on aggregate to successfully pass the subject.

A student who fails a subject for the third time is not permitted to re-enrol in that subject.

The Academic Committee reviews and approves student results, hears and determines student appeals, and relevant student applications for extensions and supplementary assessments. The Academic Committee recommends students

to the Academic Board for conferral review once all requirements of the course have been completed. The College Council based on Academic Board recommendation approve the final conferral of students.

Only those students with governing body conferral approval will have academic transcript and completion documents released.

3 PROCEDURE

Supplementary Assessment

A subject lecturer may award a supplementary assessment where a student attains 45% to 49% in an assessment point. The supplementary assessment may be a resubmission of the original assessment piece. A supplementary assessment must be completed within 10 weekdays of the student being notified by the subject lecturer. Where a supplementary assessment has been awarded, the maximum mark achievable for the assessment point is 50%.

The Academic Committee may award a supplementary assessment when considering final results for subjects. Such supplementary assessments could be awarded on medical, compassionate, academic or other special considerations. Where a supplementary assessment has been awarded for the subject, the maximum mark achievable for the subject is 50%. A supplementary assessment must be completed within 10 weekdays of the student being notified by the Academic Committee unless an alternate specified date has been set by the Academic Committee due to extenuating circumstances. Failure to submit by the due date will result in a fail grade of the supplementary assessment. Failure of the supplementary assessment will result in a fail grade for the subject.

In the granting of a supplementary assessment the full range of grades may be available for situations involving medical, compassionate, or special considerations. This must be approved by the Academic Committee.

Submission dates and extensions

Failure to submit work by the nominated "due time and date" on Turnitin will result in a penalty of 5% of the total available mark for each day beyond the due time and date. Only one type of extension (short or long) can be applied once per assignment and is applied to the published due date in the Study Guide.

Short extension

A short extension of a period of three days is available to accommodate unexpected student situations which may interrupt their ability to meet an assessment deadline. Submission of the appropriate 'extension request' form must be made prior to the due date of the assignment. The due date of the assignment is extended by three (3) calendar days only. The Academic Director may determine that some assignments (tests, examinations, presentations, timed and date specific assignments), do not qualify for late submission. If late submission of an assessment is not available this will be clearly communicated within the subject Study Guide.

Long extension

An extension on the due time and date for an assignment may be granted by the subject lecturer for a period of up to two weeks. Written application on the appropriate 'Extension Request' form must be made a minimum of 5 days prior to the due date of the assessment, at which point a draft copy of work commenced must be presented to the subject lecturer.

All ICHM students are provided with access to their own dedicated 'OneDrive' account. It is the student's responsibility to use this account to save and back up all written assessment work. Requests for extensions due to the loss of work based upon failing to use OneDrive will not be accepted.

If an extension greater than two weeks is required, a written request must be received by the Academic Director 5 days prior to the due date of the assessment, at which point a draft copy of work commenced must be presented. The Academic Director determines the approval of the extension request within 48 hours of receipt of the request.

If an extension is being sought based on medical grounds, the approved ICHM Medical Certificate form must be used to support this application.

Tests, Examinations, Presentations and timed, date specified assessments

Attendance at tests, examinations, presentations and timed, date specified assessments

Attendance at tests, examinations, presentations and timed, date specified assessments is compulsory. Failure to sit for these at the set time and date without written permission from the Academic Director or delegate will result in 0% being recorded for the assessment point.

- In the event of illness or other extenuating circumstance, a student must email academiccommittee@ichm.edu.au prior to the commencement of the assessment and advise of their non-attendance. The student is then required to email, within 24 hours of the completion of the assessment, a completed copy of the ICHM Medical Certificate form or other documentation approved by the Academic Director, supporting such illness or other extenuating circumstance. Failure to provide the required documentation within the specified timeframe will result in a 0% Fail being awarded for the assessment point.
- Students who are ill or have experienced an extenuating circumstance on the day of the assessment and are able to provide medical or alternate evidence to support that, may defer the assessment or elect to attempt the assessment. They must, however, so declare that to the Invigilator or Lecturer at the commencement of the assessment. Subsequent appeals in relation to diminished capacity to the Academic Committee requesting a supplementary examination before finalizing the result of that examination will only be considered if the diminished capacity was so declared.

Conduct of examinations

Having entered the examination room, a student shall not:

- Be in possession of any books, notes, diagrams or programmable calculators / dictionaries or any electronic devices or materials other than those which the subject lecturer has specified may be taken into that particular examination; or
- Directly or indirectly give assistance to any other student; or
- Directly or indirectly accept assistance from any other student; or
- Permit any other student to copy from or otherwise use his or her examination papers; or
- Use any examination papers of any other students; or
- By any other improper means whatever obtain or endeavour to obtain, directly or indirectly, assistance in their work, or give or endeavour to give directly or indirectly, assistance to any other student.

Any breach of the above requirements is dealt with in accordance with the Academic Integrity Policy.

Students are not permitted to leave an examination room within the last 10 minutes of an examination ending.

Students are not re-admitted to an examination room after they have left it unless during the full period of the absence the candidate has been under approved supervision.

Students are required to obey any instructions given by an examination supervisor for the proper conduct of the examination.

- In the event of a fire alarm or other unexpected emergency requiring an evacuation of the building during the conduct of an examination or assessment, the examination shall be immediately suspended, and the examination room locked. All papers and personal effects are to remain in the room.
- The supervisor of the examination or assessment will make the decision whether to resume the examination or assessment following the "all clear" based on the circumstances.
- If the examination or assessment is cancelled, the examination will be declared invalid and a new time and date will be set for a replacement examination or assessment as soon as practical.

A student may not communicate with a member of the lecturing staff on any matter relating to any examination between the holding of that examination and the publication of results unless specifically authorised by the Academic Director or delegate.

4 REVIEW

The Academic Director is responsible for the review of this policy on a 3-yearly basis.

5 APPROVAL

The Academic Board must approve any change to this Assessment Policy and Procedure.

Amendments			
Version No.	Amendment type	Amendment Date	Key changes
1.0	New Document	03/01/12	New policy based on existing policies
2.0	Major	27/6/2012	Modification to various sections
3.0	Major	16/11/12	Edit document to create Changes to the Policy section – move requirement of AB approval to new section
4.0	Major	29/11/2012	Changes to the Policy section approved by Academic Board on 29/11
5.0	Major	29/11/12	Inclusion of comment on Industry Placement assessment approved by Academic Board on 29/11/12
6.0	Major	21/12/12	Attendance 80% required – approved out-of-session vote by Academic Board
7.0	Major	7/01/2014	Removal of reference to degree only so as to cover Study Abroad programs – as recommended by TEQSA in letter of 19/12/2013
8.0	Major	7/01/2014	Change of Grievance Policy title to conform with changes recommended by TEQSA

9.0	Major	25/1/16	Minor title changes
10.0	Major	16/5/16	Updates to include backing up work, submission on Turnitin, specification of Assessment Brief
11.0	Major	17//11/16	Changes to wording in Supplementary Assessment and Submission dates and extensions
12.0	Major	11/06/17	Sections added for postgraduate awards and change to wording in examinations
13.0	Major	19/2/18	Update to section on Turnitin and declaration of independent work.
14.0	Major	19/11/18	Revised wording in policy, supplementary assessment and plagiarism sections, removed duplicate terms of reference
15.0	Major	30/11/19	Minor updates and major extracted sections moved for creation of a new Academic Integrity Policy
16.0	Major	15 Mar 2022	Minor amendments. Updates to ICHM. Language edits. Applicability check for all students regardless of study mode or ICHM qualification
17.0	Major	02/05/2023	Updates to Submission dates and extensions section. Addition of Short Extension, amendments to Long Extension. Minor title changes.
