

RŌISĪN LAFFERTY

# ABOUT US

Founded in 2010 by Róisín Lafferty, we are an award-winning interior design house fueled by our signature ambition to push the boundaries of what design can achieve. Our work emerges from a core belief that the spaces we occupy deeply impact our experience in the world— how we feel, how we think, and ultimately how we live. Every project we take on is an opportunity to enhance that experience for our clients, to pursue the unexpected while capturing something deeply essential about the material space and those who inhabit it.

Based in Dublin and hailing from around the world, we are a multidisciplinary team of architects & designers. Our studio embodies a global mindset while being rooted in a local perspective. In this way we are able to merge depth and authenticity with a bold and dynamic vision, creating an inimitable portfolio of environments that evoke imagination, captivate the senses, and give our clients something new every single time.

Like a couture gown expertly draped and sewn, a moment made timeless. A monolith of marble floats, spiraling upwards through air.

A portal materializes in space, a passageway to a new world.

# WE ARE HIRING

## ARCHITECTURAL CAD TECHNICIAN

Róisín Lafferty now welcomes applications from high calibre Architectural CAD Technicians to join our expanding studio. The successful candidate must be enthusiastic and aspire to grow in our design studio. The candidate should have an excellent educational background with an undergraduate or postgraduate degree either in architecture or architectural technology with at least two to three years' relevant and solid experience in the field of interior design or architecture.

### REQUIREMENTS

Graduate degree (Level 7 or higher) in Architecture or Architectural Technology;

Minimum of 2-3 years of post-qualification experience in architectural detailing and modelling, particularly within the fields of architecture, interior architecture and joinery;

Expert knowledge of AutoCAD 2D, Microsoft Office & SketchUp (please note we are not a Revit based studio);

Excellent knowledge of Building Regulations and Planning/Building Control Legislation in Ireland;

Exceptional understanding of design detailing;

Construction knowledge with a strong understanding of general construction practices, trades, and techniques, with a specialized focus on interiors;

Communication skills with the ability to work closely within a team demonstrating effective communication and team collaboration;

Excellent organization and file management skills;

Detail-oriented with exceptional attention to detail, with the ability to manage multiple tasks and meet deadlines;

Strong team ethic;

Fluent in spoken and written English;

Location: Studio based in Dublin;

Full European driver's license;

Eligibility to work in Ireland.

### RESPONSIBILITIES

Assist Architectural Technical Manager with the development of internal systems and structures;

Report on all aspects of role to technical manager;

Coordinating with external CAD assistance companies and other members of the

extended design team;

Manage and coordination incoming and outgoing live project information on a daily basis;

Support the Architectural Technical Manager in project coordination and contribute ideas and solutions as part of a dynamic team;

Ensure all proposals comply with the relevant building regulations;

Studio Based role.

## WHY JOIN US

As a member of our growing team, the successful candidate will be able to work on specially commissioned one off commercial and residential projects around the globe. The candidate will work collaboratively in a creative environment with an amazing team, creating exciting projects that produce memorable experiences for our clients that each member can be proud of. This exciting opportunity offers excellent career progression opportunities for the right candidate.

We offer competitive remuneration for the ideal candidate. All applications will be dealt with in the strictest confidence.
