

# Christine Products / Viking Jockey Wheels and Stands

If you have purchased any of the below part numbers from a TWL Branch or via the online store since 1 September 2024 please ensure that the jockey wheel or implement stand has;

- 1 - A roll pin is fitted in the handle. (Fig 1)
- 2 - That the roll pin is secure. This can be tested by applying hand pressure using a 5mm pin punch or similar. Check both directions please. (Fig 2) [Click here for a video demonstration.](#)
- 3 - If either of the above is not correct then cease using your trailer, until rectified. Contact your local TWL branch to arrange for a replacement.

⚠️ **Failure to adhere may cause serious injury or death.** ⚠️
