

# Go! Solutions Hairball Control and Urinary Recipe: Annotated Graph

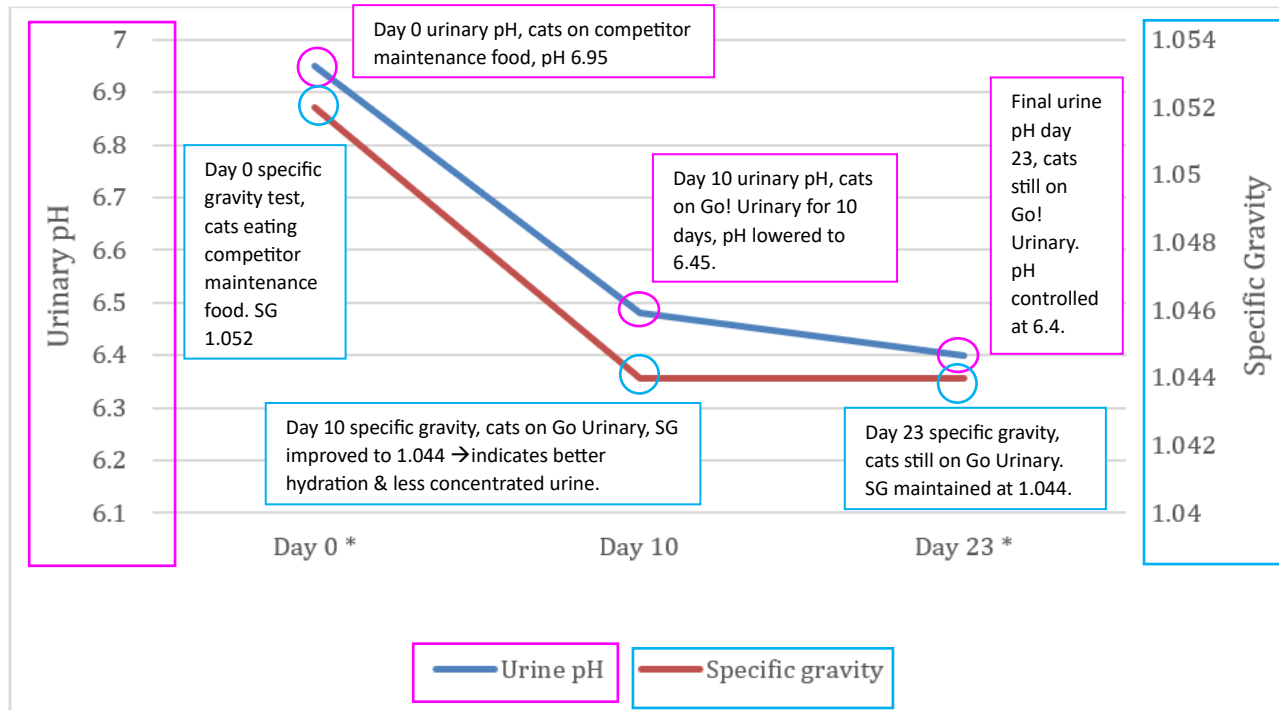

Table 1.0

Urinary pH and specific gravity values at day 0, 10 and day 23 in the study, representative of these parameters for cats while being fed an industry leading maintenance cat food (day 0), and while being fed the Go! Solutions Hairball Control and Urinary Care™ recipe for 10 and 23 days respectively.

\*indicates that the values from between day 0 and day 23 are statistically significant.
