

## Modern Slavery Statement

At Entertainment, we are committed to conducting business ethically and responsibly. We oppose all forms of modern slavery, including forced labour, human trafficking and child exploitation.

Whilst we are not currently required to report under the Modern Slavery Act 2018, we take the risk of modern slavery in our operations seriously. We expect our suppliers, partners and contractors to uphold the same high standards, and we continue to review our practices to ensure transparency and integrity across our business.
