Superdrug Mobile is commitment-free

You can purchase a SIM online or instore, then pick your plan online and activate your SIM. Once you activate your SIM there's no contract and you're not tied in. You can change your plan anytime (free of charge) with no strings attached. Woo!

All our plans include unlimited UK calls and texts, yay, and you can manage your account online at www.superdrugmobile.com/dashboard

What's included?

All our plans include UK unlimited calls and texts. When you pay for your plan these are valid for 1 calendar month.

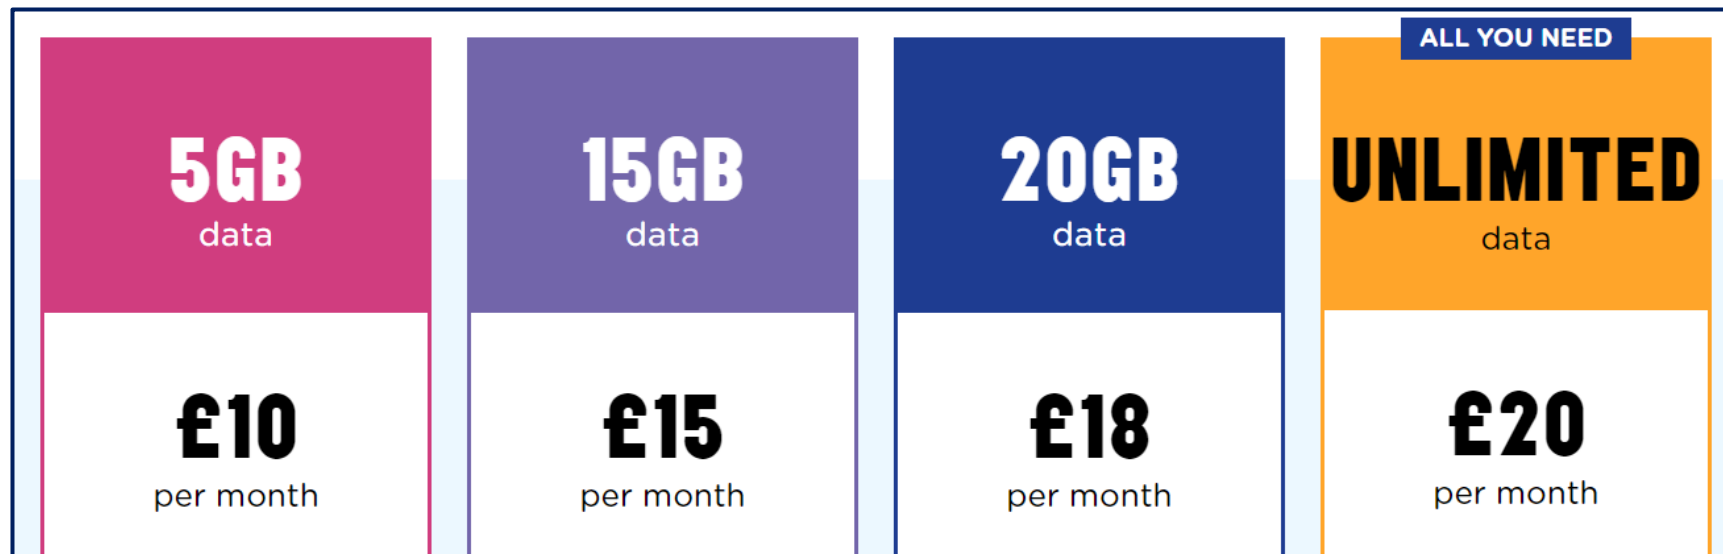

Unlimited text messages include: standard texts sent to other standard UK mobiles (starting 07) and texts within our roaming EU countries. Each message can accommodate 160 characters.

Multimedia messages (MMS): are not part of your inclusive text allowance, they are zero-rated – meaning you will not be charged for sending MMS messages. MMS can only be sent to other standard UK mobiles (starting 07). Superdrug Mobile reserves the right to suspend, modify or withdraw this, without notice, at any time.

Unlimited calls include: standard UK landlines (starting 01, 02 and 03), freephone numbers (starting 0800 and 0808), standard UK mobiles (starting 07) and calls within our roaming EU countries. Voicemail can be accessed for no additional charge.

Our plans

Data rollover: plans with specific data allowance (all plans apart from our Unlimited plan) last for a calendar month and then roll over for another calendar month. This means if you don't use all your data one month, it rolls over to the next calendar month (as long as you renew your plan).

Unlimited data usage policy: if you have unlimited data as part of your plan, there are no hidden caps or limits when using your device within the UK. Unlimited data should give you all the access to the internet you would normally need, so you can use our service to your heart's content. Use of the Services for commercial, resale or fraudulent purposes isn't allowed under this Agreement, so we do reserve the right to monitor any unusual activity that may indicate that this is happening to identify and prevent such non-permitted use.

You'll need a cash add on for roaming outside the EU.

Our add-ons

If you run out of data or want to make calls to 070, 084, 087, 09 or 118 numbers or other chargeable calls, you can buy an add-on. You can buy data and cash add-ons anytime via your Superdrug Mobile dashboard.

070/084/087/09/118 numbers: calls to these numbers have an access charge of 25p per minute. A service charge will also apply and will vary depending on the NGN band number associated with it. You can find the band and charges associated to the number you wish to call on our Non-Geographic price guide, which can be found through our Terms and Conditions here: <https://www.superdrugmobile.com/terms>

Data add-ons: Data add-ons will expire two calendar months following purchase as long as you have an active plan. If you need additional data when roaming in the EU/EEA you will need to buy a data add-on.

Data Add-ons Price	Internet (UK)
£2	1GB
£3	2GB
£5	4GB

Cash add-ons: Some things fall outside what's included in your standard plan. For these things you will need to buy a cash add-on. The type of calls you can make with a cash add-on are numbers starting with 084 or 087, international calls and voice shortcodes. There are some services, e.g. premium numbers (starting 070, 084,087, 09, 118 & shortcodes that you can use with your cash add on. More information can be found on page 13.

You can buy cash add-ons from your dashboard and they never expire (as long as you have an active plan). You can buy them in two amounts: £5 and £10.

Once you buy a cash add-on it has no expiry date unless there's no activity at all on your account for 220 days, in which case Superdrug Mobile reserves the right to terminate or suspend your account. Cash add-ons are separate from the rest of your plan and cannot be used to buy data add-ons or your monthly plan.

Spend Limits: We've applied limits to the amount you can spend on third party digital content and premium rate calls (including directory enquiries) and messages (including SMS shortcode messages). The spend limits are £40 per single payment transaction and the cumulative sum of £240 for payment transactions made over the course of a calendar month. These limits are set by law and we are not able to change them.

Roaming – using your mobile abroad

With Superdrug Mobile you can use your mobile to call, text and get online while travelling abroad.

Travelling in the EU: You use your Superdrug Mobile plan as normal, everything works like at home. Data comes out of your monthly allowance or data add-ons. Calls and texts are unlimited.

You need a cash add-on to make calls and texts from EU countries to the rest of the world.

Travelling outside the EU: You need a cash add-on for data, calls and texts for countries outside the EU. Top up your cash balance, then just pay as you go.

Roaming rates: the roaming rates you'll be charged for calls and messages while abroad will depend on which band the country you're travelling in falls into. See the table below to find out.

International – using your mobile from the UK

To make calls and send messages to international numbers from the UK, you need a cash add-on. Buying a cash add-on is easy and something you can do at any time. Cash add-ons are available in £5 and £10 amounts. Top up your cash balance, then just pay as you go.

International rates: the international rates you'll be charged for calls and messages to international numbers will depend on which band the country you're trying to contact falls in. See the table below to find out:

International rates	Voice call (per minute)	SMS (per message)	MMS Pic/Vid (per message)	Cost to receive

Emergency calls

We know that sometimes things happen and you need to call the emergency services, so 999, 112, 111, 119, 101 and 105 are free to call when you need them.

Text relay

Text relay services are available, and these are charged at 20% less than the standard rate.

Premium, non-geographic and other numbers

Some calls and other services within the UK fall outside of what's included in your plan - for example, voting on TV shows, calling directory enquiries, digital content purchases and entering competitions.

Premium Rate Services can be:

- Voice calls to long numbers starting 070, 084, 087 & 090, where you're charged an access charge of 25p per minute (with a one minute minimum charge) plus a service charge (set by the company you're calling – they'll tell you this).
- Voice or video calls to short numbers, which are known as shortcodes (four, five or six digits).
- Text and multimedia messages to and from shortcodes, which are charged at 10p (or more) per message.
- If you're using a messaging service, you may also be charged the standard rate for sending your message. Superdrug Mobile's standard rates are FREE for text messages (SMS), FREE for picture messages (MMS) and 80p for video messages (also called MMS).
- Calls to Directory services (starting 118), where you're charged an access charge of 25p per minute (with a one minute minimum charge) plus a service charge (set by the company you're calling – they'll tell you this).

Spend Limits

We've automatically applied limits to the amount you spend on third party digital content and premium rate calls (including director enquiries) and messages (including SMS shortcode messages). The limits are £40 per single payment transaction and the cumulative sum of £240 for payment transactions made over the course of the calendar month. These limits are set by law and can't be changed.
