

## Price Guide - Standard calls, SMS and Data.

We have one easy plan which costs £10 per month, and gives you unlimited calls, unlimited SMS, and 4GB of data. Woo!

### **Unlimited calls includes:**

Standard UK Landlines (01, 02, 03) Freephone numbers (0800 and 0808) Voicemail, and Standard mobile numbers. When you are abroad you can call back to the UK when you are in EU/EEA countries, within EU/ EEA countries and also to other EU/EEA countries.

### **Unlimited SMS includes:**

Standard rate SMS and MMS in the UK. If you are abroad you can text or send an MMS back to the UK or to other EU/EEA countries.

### **4GB of data**

You can use your data any way you want! If you want to use it in your iPad, or as a personal hotspot, you can. You can also use your data when you visit anywhere in the EU/EEA.

It's ok if you don't use all your data in a month! As long as you have an active plan, your data rolls over for another full calendar month.

### **Data add-ons**

We know that sometimes you just love scrolling, and before you know it you've gone through 4GB of data, and it's 4am, and you're still at the bus stop.

When that happens you can buy a data add-on, which comes in three sizes:

1GB for £2

2GB for £3

4GB for £5

Exactly like the data from your plan, these last for a calendar month and then roll over for another calendar month, so you have loads of time to use it, as long as you have an active Plan.

If you have a few MB of data left on your plan, and don't want to risk running out, you can buy a data add-on. We always use your oldest data first - we promise.

## Cash add-ons

Some things fall outside your standard plan. For these things, you will need a cash add-on. These can be bought from your dashboard, and never expire (as long as you have an active plan). You can buy them in two amounts: £5 and £10.

Cash add-ons are separate from the rest of your plan and cannot be used to buy data add-ons or your monthly plan.

Cash add-ons can be used for:

Calling non-geographic numbers, voice shortcodes, international calling, and international roaming outside of the EU/EEA.

If you need to know how much it does cost when you travel outside the EU/EEA, read on.

## Spend Limits

We've applied limits to the amount you can spend on third party digital content and premium rate calls (including directory enquiries) and messages (including SMS shortcode messages). The spend limits are £40 per single payment transaction and the cumulative sum of £240 for payment transactions made over the course of a calendar month. These limits are set by law and we are not able to change them.

## Changes to your service.

Superdrug Mobile reserves the right to change, suspend or withdraw any part of your service in accordance with the [Terms and Conditions](#). We reserve the right to introduce costs for certain calls or parts of the service (e.g. personal hotspot and MMS) and will provide you with at least one month's notice in advance of any such changes.

If your account is not used for 220 days, Superdrug Mobile reserves the right to terminate your account.

## Changes to your Plan

We reserve the right to change your Plan with one month's notice to customers.

## Premium, Non-Geographic and other Numbers.

Some calls and other services within the UK fall outside of what's included in your Plan - for example, voting on TV shows, calling directory enquiries, digital content purchases and entering competitions.

We will be adding the ability to use premium rate services very soon, however at the moment you cannot use them on Superdrug Mobile. 084 numbers are available provided you have an active cash add-on.

Call shortcodes (usually 5-7 numbers long) are often used for information services and where these services are free to call they are available on Superdrug Mobile. The service provider will let you know if the call is free.

Texts to 65075, 75075 & 85075 (used to switch mobile providers) are free of charge.

### **Emergency Calls.**

We know that sometimes things happen and you need to call the emergency services, so 999, 112, 111, 101, and 105 are free to call when you need them.

### **Text Relay.**

Text relay services are available, and these are charged at 20% less than the standard rate.

## Non-Geographic Numbers.

To check which band a number falls under, take a look at the NonGeographic Numbers Price Guide, which can be found through our

## International Roaming.

### Using your phone abroad.

We allow roaming in some countries in the world, from Austria to Zambia. There are standard charges for using your phone abroad. Of course, in the EU/EEA, you can use your calls, SMS, and data at no extra cost for standard calls and SMSs. All other calls and SMSs are charged based on where you are, and the country you're contacting.

We've put countries into 4 different zones to make it super easy to work out how much it will cost you.

You can buy cash add-on to enable you to call and SMS these numbers and services.

Buying a cash add-on is easy and something you can do at any time. Cash add-ons are available in £5 and £10 amounts.
