Margherita Raso: Vizio di Forma at Italian Cultural Center of New York, September 21 – November 25, 2022

"Magazzino Italian Art presents *Vizio di Forma*, Margherita Raso's first institutional solo exhibition in the United States, curated by Chiara Mannarino and exhibited in collaboration with the Italian Cultural Institute in New York and Casa Italiana Zerilli-Marimò at New York University.

Raso's practice spans a variety of mediums, from sculpture to site-specific installation, and has a material focus. *Vizio di Forma* is composed of three bodies of sculptural work that engage with diverse languages, forms, and styles—together encapsulating the artist's practice to date. Nearly each piece was newly produced for the exhibition." — Magazzino Italian Art
