Introduction, background and collaboration.

Whilst we may be best known for gas boilers in the UK, behind the scenes there is a wealth of expertise reaching across the globe supporting the low carbon transformation that is coming to the UK heating industry.

Our parent company, Groupe Atlantic, has a long history in heat pumps and currently holds a market leading position in France. Combining Groupe Atlantic's technical and manufacturing heat pump expertise, with our knowledge of UK heating systems and market, provides a winning formula for our range of monobloc heat pumps.

Combining knowledge and skills from Groupe Atlantic, Ideal Heating and Gledhill, we have developed a range of products that will make our customers lives easier, just like the award-winning Logic boiler.

As well as the technical and manufacturing expertise, the low carbon products are supported by the industry leading customer support package. From heating design support to technical assistance, whether the product is a heat pump or a gas boiler, we will deliver the same outstanding customer service and support.

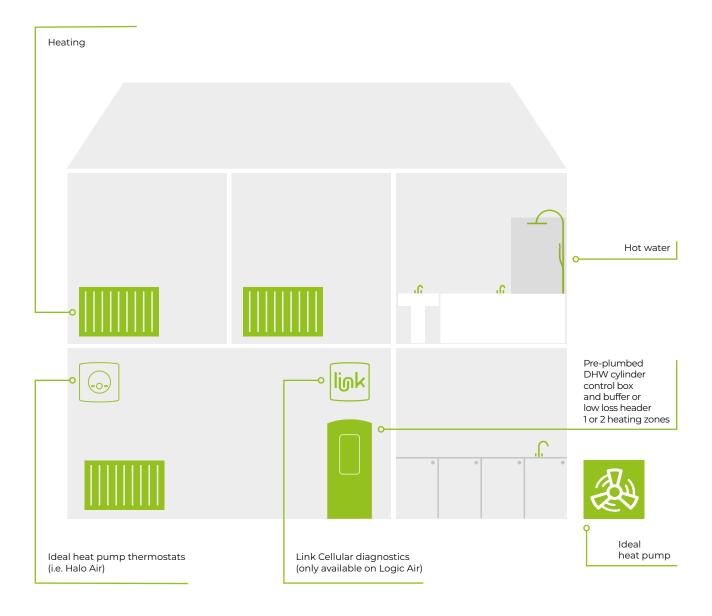

In addition, we are also utilising cylinder expertise within the group from Gledhill, who manufacture the high quality, ultra-efficient heat pump cylinders that complement our monobloc heat pumps.

The Ideal heat pump ecosystem.

The Ideal heat pump range brings our best low carbon products together. Designed to operate seamlessly, our industry leading heat pumps, highly efficient hot water cylinders and Halo room thermostats provide all the components

for reliable and efficient heat pump systems. Supported by our customer service team and national engineer support, the Ideal heat pump range offers the complete low carbon package.

World-class support.

Best-in-class heat pump engineer support.

- · Nationwide customer service engineers
- Dedicated expert heat pump engineers to ensure you have the support you need
- On hand to provide one-to-one advice on the road, over the phone or online
- · You're fully supported, wherever and whenever you need

Products designed to work together.

- Taking all the experience we have across the globe and throughout Europe to deliver heat pump technology that works and provides optimum comfort and efficiency
- The Ideal heat pump package combines three revolutionary products: Our quiet, compact, and highly efficient monobloc heat pump,
- our industry leading pre-plumbed heat pump cylinder, and the Halo Air heat pump thermostat
- Designed in the UK for the UK by our in house experts
- · Ensuring a fit for purpose heating system

- · Over £4 million customer service investment
- Our highly trained customer service have expertise across the full product range
- · UK based contact centre 364 days a year
- · Delivering industry leading customer support

Remote system health checks.

- · Simple and quick heat pump health checks
- · Quick and easy no call out remote system resets
- · Smart support for peace of mind

*The heat pump system needs to be connected through Halo Air Wi-Fi or Link Cellular heat pump for remote system health checks, only applicable to the Logic Air.

Logic Air heat pump.

^{*}Performance data in accordance with EN 14825, EN 12102-1, EN 14511. The energy efficiency provided may not correspond to the actual energy once installed in a building, as the efficiency is influenced by other factors such as heat loss in the distribution system and the capacity of the products in relation to building size and characteristics.

KEY FEATURES

Designed for the UK climate

364 days a year UK customer service

Quiet operation

SCOP rating up to 519%*

Hot water in sunshine, rain, ice and snow

All Logic Air heat pumps are Quiet Mark certified

Logic Air specification.

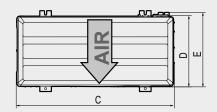

The Logic Air heat pump range is our range of monobloc heat pumps, offering great efficiencies both in heating and hot water. The Logic Air is designed to deliver efficient, simple and reliable low carbon heating in homes throughout the UK.

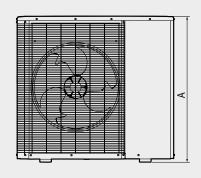

Taking the learnings from the award winning Logic boiler, the Logic Air heat pump integrates seamlessly with UK homes, partnered with our best in class pre-plumbed hot water cylinder and our connected Halo Air room thermostat, the Logic Air is quick to install, easy to commission and simple to use.

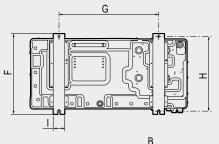

Our heat pumps are supported by our industry leading customer service and warranty team which is based in the UK and is open 364 days a year, providing customer service and technical support.

Logical solutions.

EFFICIENCY

The efficiency rating of a heat pump determines how much it costs to use. A high efficiency rating means it costs less to operate. The Logic Air has one of the highest efficiency ratings in the UK, rated at 5.19 (Coefficient of performance) making it one of the most economical heat pumps on the market.

SOUND AND DIMENSIONS

Sound and dimensions are important, not just for our customers comfort level, but to MCS and the Planning office. The Logic Air is quiet and compact. Small enough for permitted development with the local planning authority and cutting edge acoustic technology makes its low sound levels amongst the best in the market.

FAST HEAT PUMP INSTALLATION

Our Logic Air heat pump, pre-plumbed cylinders and Halo Air room thermostat are designed to be amongst the fastest heat pumps to install. Factory fitted components, click and connect wiring terminals reduce installation time and improve installation reliability.

HOT WATER

Ensuring enough hot water can be generated efficiently and quickly is crucial to a heat pump system. The Logic Air preplumbed hot water cylinder can generate hot water faster than some of the most popular heat pump DHW cylinders in the UK, saving money and energy.

SIMPLE TO USE, APP CONTROL AND ONLINE HEALTH CHECKS

Halo Air heat pump thermostats connect to your phone with options to connect to our customer service team. Halo Air automatically makes your heating system more efficient, enables remote control and 24/7 system performance data. All wrapped up in an easy to use controller.

SAFE AS STANDARD

With a '0' ozone depletion rating and low global warming potential, R32 is safe, efficient and reliable.

HP290 heat pump.

KEY FEATURES

Designed for the UK climate

364 days a year UK customer service

Low GWP R290 Refrigerant SCOP rating over 500%*

Hot water in sunshine, rain, ice and snow Temperatures up to 75°C

HP290 specification.

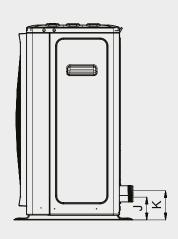

The HP290 monobloc heat pump offers a low-GWP refrigerant with high efficiencies.

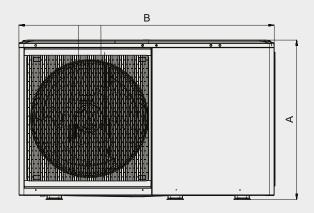

The HP290 can provide efficient heating and hot water throughout the year by utilising our pre-plumbed and pre-wired cylinder. The system offers our users an aesthetically pleasing heating solution and when paired with Halo Lite RF, a great user experience.

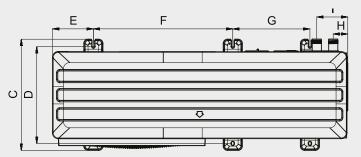

Our heat pumps are supported by our industry leading customer service and warranty team which is based in the UK and is open 364-days a year, providing customer service and technical support.

Certification	EN 14511:2018, EN	N 14825:2018	, EN 12102-1:2	2022			

^{*}Performance data in accordance with EN 14825: 2016, EN 12102, EN 14511: 2018. The energy efficiency provided may not correspond to the actual energy once installed in a building, as the efficiency is influenced by other factors such as heat loss in the distribution system and the capacity of the products in relation to building size and characteristics.

The technology.

1. CAPTURE

The fan passes ambient air over extremely cold liquid refrigerant. The refrigerant captures the heat from the ambient air and becomes a warm vapour.

2. COMPRESS

The warm refrigerant vapour passes through a compressor which produces hot refrigerant and usable heat.

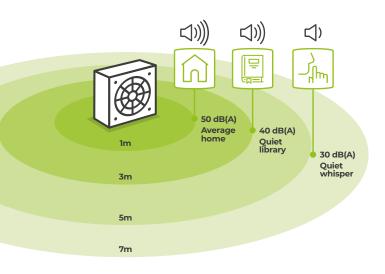

3. EXCHANGE

The heat in the hot refrigerant is then transferred to the heating and hot water cylinder through a heat exchanger.

4. EXPAND

Once the heat has been transferred to the house, the refrigerant passes through an expansion valve which reduces its temperature, making it really cold again and enabling it to capture heat from the ambient air, continuing the cycle.

Sound pressure and sound power.

SOUND POWER

The way we calculate the sound a heat pump makes is by measuring the sound power and sound pressure. The sound power level is the sound that is emitted from the unit in laboratory conditions and is displayed on the ErP label.

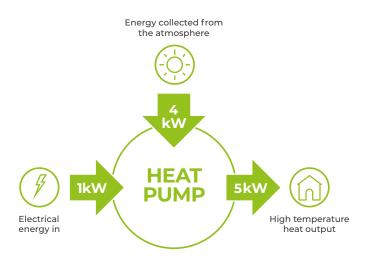

SOUND PRESSURE

The sound noise level (sound pressure) measures the level of sound that you hear above the sound that already exists in the background. Sound pressure is lower than sound power.

QUIET MARK

The Logic Air range of heat pumps have all achieved Quiet Mark certification. Quiet mark is associated with the noise abatement society and technically assesses and certifies the quietest heat pumps in the heating industry.

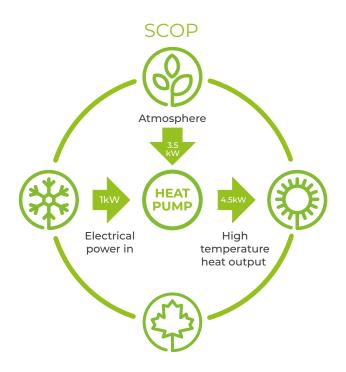

COP & SCOP measures of efficiency.

COP - COEFFICIENT OF PERFORMANCE

The coefficient of performance (COP) helps us measure the efficiency of a heat pump. The COP calculates the amount of heat energy a heat pump can create from each unit of electricity it uses.

SCOP - SEASONAL COEFFICIENT OF PERFORMANCE

The seasonal coefficient of performance (SCOP) is the average COP carried over the annual heating season (the full year).

Heat pump pre-plumbed cylinders.

KEY FEATURES

150ltr - 300ltr options

Designed to fit in UK homes

Fully pre-plumbed and pre-wired

Industry leading reheat times

Control box included

Pre-plumbed cylinder specification.

Our stainless steel pre-plumbed hot water cylinders combine efficiency with practicality. Designed and manufactured in the UK and boasting industry leading reheat times, our cylinders have been designed to store and generate hot water efficiently using a heat pump.

COMBINED DHW
AND BUFFER CYLINDERS

The pre-plumbed cylinder range includes models with an integrated buffer. Housing the DHW cylinder and separate buffer tank in the same case, alongside pre-wired circulation pumps and all the standard pre-plumbing components.

The pre-plumbed cylinders remove and reduce the complexity and cost of a traditional heat pump installation. Our cylinders are completely pre-plumbed in our UK factory, everything from the three-port valve to the filter are pre-fitted, saving time and space during installation. The cylinders are also pre-wired; from pipe sensors to the thermostatic cut-out, optimising installation and increasing reliability.

LOW LOSS HEADER

Our pre-plumbed low loss header cylinders de-couple the heating system from the heat pump protecting flow rates and enabling two zone control.

KEY FEATURES

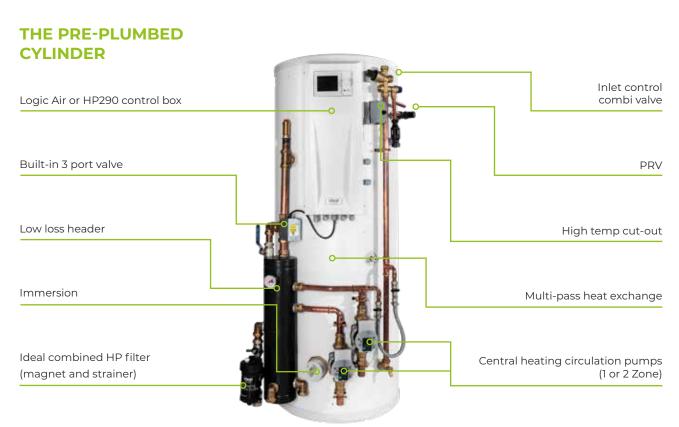

Industry leading reheat times

Control box included

Fully pre-plumbed and pre-wired

Logic Air control box.

The Logic Air control box is the central hub for the heat pump system, linking the heat pump to your heating and hot water cylinder. It enables in depth control, scheduling, connectivity and performance diagnostics.

INBUILT HEAT PUMP CONTROLLER

Our inbuilt controller uses tried and tested technology to keep the property warm efficiently. From scheduling to diagnostics our controller gives control and transparency.

QUICK START SET UP

Our quick start menu makes commissioning fast, easy and accurate. In just a few steps the heat pump can be up and running and tuned to its most efficient parameters.

HYBRID READY

For installations that require a heat pump and a boiler, the Logic Air control box brings a boiler and heat pump together seamlessly.

SMART GRID COMPATIBLE / SOLAR PV COMPATIBLE

The Logic Air control box is smart grid ready and can connect to solar PV, enabling smarter ways of powering heating and hot water.

PERFORMANCE DIAGNOSTICS

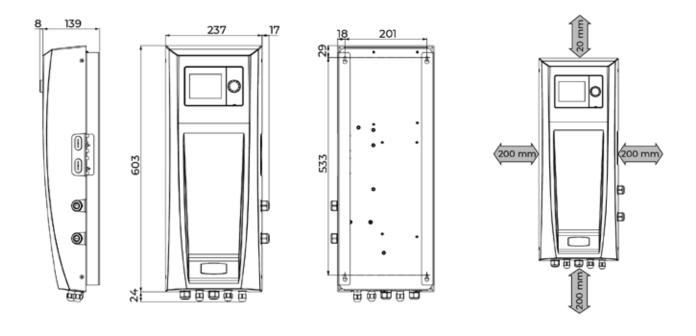

The Logic Air control box provides access to the efficiency of the householders heating system, helping them to understand the health of their heat pump system at a glance.

CONNECTIVITY

The Logic Air control box is compatible with Halo Air, Link Cellular heat pump diagnostics and 3rd party thermostats, providing access to online control, scheduling and remote diagnostics from anywhere in the world.

HP290 control box.

The HP290 control box is a hub for a HP290 heat pump system. By bringing all electrical connections to one central location, the HP290 control box enables a fast and simple installation experience.

DESIGNED FOR HP290

Designed by Ideal Heating, the HP290 control box offers heat pump installers a quick and simple installation.

HYBRID AND CASCADE READY

For more complex installations, the HP290 control box can seamlessly bring the HP290 heat pump together with either a boiler in hybrid mode or another HP290 in cascade installations.

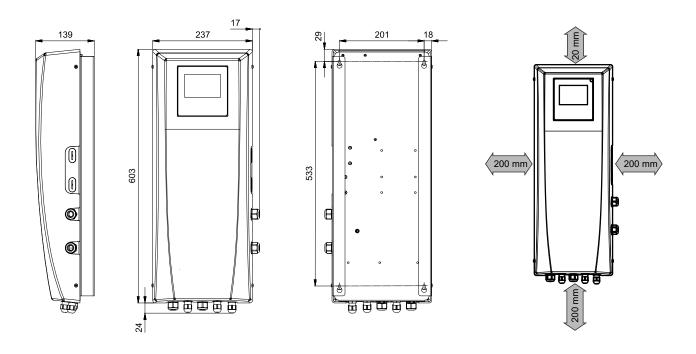

FLEXIBLE

The HP290 control box gives the HP290 the ability to work with all types of UK heating systems, from traditional radiators to underfloor heating, with the ability to control more than one heating zone.

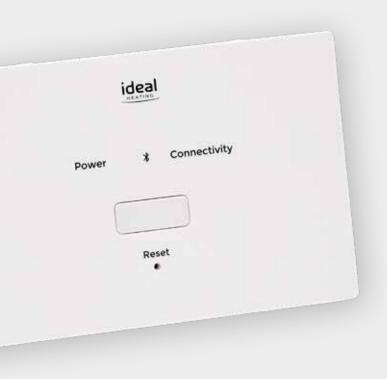

PERFORMANCE MONITORING

With the HP290 control box, end users can see how their heat pump system is performing on a daily, weekly and annual basis, giving them piece of mind that their heat pump is working as it should be.

Control box	Ideal Product Code: 239386		
Physical properties			
Weight	kg	5	
Height	mm	627	
Width	mm	254	
Depth	mm	147	
Electrical properties			
IP rating	IP	20	
Rated voltage	VAC	220-240	
Maximum rated current (control box)	А	1	
Maximum rated current (contactor)	А	16	
Rated power input (control box)	W	100	
Rated power input (contactor)	W	3000	

ACTIONABLE INSIGHTS

Link for heat pumps uses cellular and Wi-Fi connectivity to access real time information from the Logic Air heat pump system. This includes performance data and fault codes offering a new depth of insight for those managing the heating and hot water demands for large housing portfolios.

DESIGNED IN-HOUSE

Our Link remote monitoring platform has been designed in-house specifically for Ideal Heating systems. The Link Cellular module can integrate connectivity into every Logic Air heat pump.

Link Cellular gives full access to the performance data, service reminders and fault notifications of every heating system in a fleet on one dashboard, all in real-time through the Partner Portal.

Our Link Cellular module contains a roaming SIM card that communicates to the Partner Portal using mobile phone technology. There's no monthly or yearly data subscription, Link Cellular is a one-off cost for 10 years of data.

THE PARTNER PORTAL

Our purpose-built Partner Portal is designed to make managing a heating fleet easier. With increased loading speeds, all data including faults is sent directly to the cloud, accessible by an unlimited number of user accounts with multiple role options available (admin, installer, user). The Partner Portal APIs can be integrated into existing IT systems seamlessly.

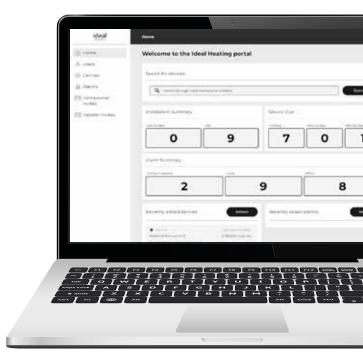

Understand tenant usage patterns and behaviours to identify and address unusual activity or possible fuel poverty

Fault codes displayed supporting 'first-fix' maintenance - understand the problem before an engineer visit

View system service status with service due notifications for effective management of engineer resource

REMOTE MONITORING SOLUTION

Our Link remote monitoring solution helps to support you across multiple areas:

Efficiency

Engineer and support centre resource

Tenant welfare

Understand usage patterns and behaviour to avoid possible fuel poverty

Sustainability / environmental

Compliance

KEY FEATURES

Key features of our Link Heat Pump Partner Portal include:

- Service reminders
- Email alert and summaries
- Full visibility including installation numbers and servicing status
- > Unlimited numbers of user accounts
- > Heat pump fault and alarm history
- Remotely control all of your connected heat pumps
- Monitor live heat pump performance data
- API's to integrate the Partner Portal into existing IT systems

Accessories list.

FLEXIBLE HOSE

Ideal Product Code: 236909

Flexible Hose 500mm

- 28mm -1" Female connections pair (2x hose)
- Pre-insulated (19mm PVC)
- Stainless steel

Ideal Product Code: 236910

Flexible Hose 750mm

- 28mm -1" Female connectionsPair (2x hose)
- Pre-insulated (19mm PVC)
- Stainless steel

BUFFER TANK

Ideal Product Code: AH700436

25L Buffer Tank

- 1" and 1"1/4 connections
- 6 bar max. pressure

Ideal Product Code: AH700437

50L Buffer Tank

- 1" and 1"1/4 connections
- 6 bar max. pressure

ACCESSORIES FOR OUTDOOR UNIT:

LOGIC AIR ANTI-VIBRATION RUBBER MOUNTING FEET

Ideal Product Code: AH809536

- Rubber feet
- Pair (x2)
- 600mm

HP290 ANTI-VIBRATION RUBBER MOUNTING FEET

Ideal Product Code: 240903

- For HP290 only
- 3 pack
- 600mm

^{*}The product images shown are for illustration purposes only and may not be an exact representation of the product

ADDITIONAL ACCESSORIES:

FILTER BALL VALVE

Ideal Product Code: 236738

- 1" connections
- 30 bar max. pressure
- Brass chrome plated body
- Stainless steel & Nylon filter

Y STRAINER

Ideal Product Code: 236740

- 1" connections
- 16 bar max. pressure
- Brass body
- Stainless steel strainer

MAGNETIC FILTER

Ideal Product Code: 236911

- 28mm connections
- 4 bar max. working pressure

COMPATIBLE WITH HP290.

Ideal Product Code: 241519

HP290 CONTROLLER

- Standalone controller for HP290
- HP290 only

COMPATIBLE WITH HP290.

HP290 HYBRID KIT

Ideal Product Code: 240932

- Kit for HP290 installations with a boiler
- HP290 only

COMPATIBLE WITH HP290.

HP290 2-ZONE KIT

Ideal Product Code: 241520

- Kit for 2-zone HP290 installations (HP290 only)
- Required when not using pre-plumbed cylinder

LINK DIAGNOSTICS CELLULAR HEAT PUMP

Ideal Product Code: 235545

- Remote Diagnostics
- Online Dashboard
- Designed for Logic Air
- 10 year data plan included
- Only available for Logic Air

IDEAL HALO AIR Wi-Fi & RF

KEY FEATURES

Designed for Logic Air

Easy to install

Full heating and hot water control

Halo Air designed for the Logic Air.

Halo Air is a programmable room thermostat, based on the current Ideal Halo platform that is designed and developed to work seamlessly with the Logic Air monobloc heat pump.

As the primary interface with the end user for the whole heating system it is important that the room thermostat is clear, easy to use and guides the right usage behaviour. Halo Air not only provides a clear user interface for the householder but it helps to communicate diagnostic data to the installer or service help desk.

HALO AIR RF.

HALO AIR WI-FI.

HALO AIR 2 ZONE RF.

HALO AIR 2 ZONE WI-FI.

Halo Air RF.

COMPATIBLE WITH Logic Air.

2 year warranty

Easy to install

Load compensating control

Compatible with Logic Air

Simple wiring connections to heat pump control box

Simple dial and button interface

Halo Air RF is a wireless programmable room thermostat designed specifically to work with Logic Air.

Halo Air offers fast, flexible and intelligent wireless technology and is packed with features that enable simple and easy heating and hot water control.

Ideal product code	234819
Power source	4 x AA alkaline batteries or USB
Wireless communication protocol	Zigbee 3.0
Heat pump communication protocol	BSB
Install location	Wall mounted or desk mounted
Desk stand supplied	YES
ERP Class	Class VI
TTZC (Time, Temperature and Zone control)	YES - Time and Temperature control
WEEE	Yes - options available
Certification	UKCA CE

^{*2} year parts and labour warranty available when registered within 30 days of installation. Terms and conditions apply.

Halo Air Wi-Fi.

2 year warranty

Smart home compatible

Control your heating and hot water anywhere via the app

Compatible with Logic Air

Easy to install

Smart support from Ideal customer service

Easy app set up

Load compensating control

Halo Air Wi-Fi is engineered specifically to work with Logic Air heat pumps and allows flexible control of heating and hot water with the intuitive Halo app, which can be connected through smart home devices like Amazon Alexa and Google Home.

It's simple to install and straightforward for everyone to use, no matter where they are.

Ideal product code	234790	
Power source	4 x AA alkaline batteries or USB	
Wireless communication protocol	Zigbee 3.0	
Heat pump communication protocol	BSB	
Install location	Wall mounted or desk mounted	
Desk stand supplied	YES	
ERP Class	Class VI	
TTZC (Time, Temperature and Zone control)	YES - Time and Temperature control	
WEEE	Yes - options available	
Certification	UKCA CE	

^{*2} year parts and labour warranty available when registered within 30 days of installation. Terms and conditions apply.

Halo Air 2-Zone RF.

COMPATIBLE WITH Logic Air.

2-Zone control

Compatible with Logic Air

Halo Air RF 2-Zone incorporates an additional programmable room thermostat with the extra functionality of controlling the temperature of a second zone.

Easy to install

Load compensating control

Simple wiring connections to heat pump control box

Simple dial and button interface

Ideal product code	234791
Power source	8 x AA alkaline batteries or USB
Wireless communication protocol	Zigbee 3.0
Heat pump communication protocol	BSB
Install location	Wall mounted or desk mounted
Desk stand supplied	YES
ERP Class	Class VI
TTZC (Time, Temperature and Zone control)	YES - Time, temperature and Zonal control
WEEE	Yes - options available
Certification	UKCA CE

^{*2} year parts and labour warranty available when registered within 30 days of installation. Terms and conditions apply.

Halo Air 2-Zone Wi-Fi.

2-Zone control

Smart home compatible

Control your heating and hot water anywhere via the app

Compatible with Logic Air

Easy to install

Smart support from Ideal customer service

Easy app set up

Load compensating control

Halo Air Wi-Fi 2-Zone incorporates an additional programmable room thermostat with the extra functionality of controlling the temperature of a second zone.

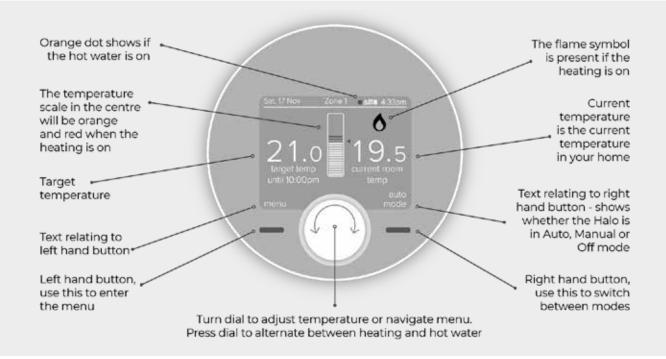

Ideal product code	234792	
Power source	8 x AA alkaline batteries or USB	
Wireless communication protocol	Zigbee 3.0	
Heat pump communication protocol	BSB	
Install location	Wall mounted or desk mounted	
Desk stand supplied	YES	
ERP Class	Class VI	
TTZC (Time, Temperature and Zone control)	YES - Time, temperature and Zonal control	
WEEE	Yes - options available	
Certification	UKCA CE	

^{*2} year parts and labour warranty available when registered within 30 days of installation. Terms and conditions apply.

Halo Air features.

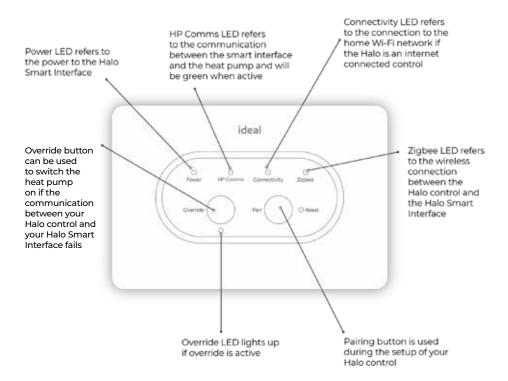

HALO AIR IS A BATTERY POWERED, WIRELESS CONTROL FOR BOTH HEATING AND HOT WATER.

HALO AIR SMART INTERFACE

The Halo Air smart interface connects the heat pump to the Wi-Fi and the Halo thermostat(s)

Halo Lite RF.

Easy to install

Simple wiring connections to heat pump control box

Simple dial and button interface

Compatible with HP290

Halo Lite RF offers end users an aesthetically pleasing room thermostat with the signature Halo experience that integrates perfectly with their HP290 heat pump system.

Ideal product code	237423	
Power source	4x AA batteries (PRT), 240V (receiver)	
Install location	Wall mounted or desk mounted	
Desk stand supplied	YES	
Heat pump control	One/off control - cycle time 1 hour

Designed for new builds.

MONOBLOC TECHNOLOGY

- Modern contemporary chassis design
- Quiet acoustics
- Easy to install and service
- Simple to commission
- Designed for Halo heat pump thermostats

DHW PERFORMANCE MATTERS

- Designed to work with ideal heat pump pre-plumbed cylinders
- Highly efficient hot water production
- Fast reheat times for reduced energy usage
- Low pressure losses ensure good heat pump modulation

GOING GREEN WITHOUT COMPROMISE

- Built to be efficient with an A+++ ErP rating
- Capacities to work in the UK climate
- Low global warming potential refrigerant
- Integrates with solar PV and smart grid technologies

Designed for home owners.

USER FRIENDLY

- Simple user controls
- Low running costs
- Easy maintenance and installation
- Engineered for reliability

INDUSTRY LEADING CUSTOMER SERVICE

- In house heat pump design team
- Nationwide service engineers
- UK customer service contact centre
- Online warranty registration with Connect

CUTTING EDGE TECHNOLOGY

- Auto Adapt Autopilot for your heating
- Engineered for reliability
- Remarkably quiet

Designed for installers.

QUICK INSTALLATION

- Small and compact
- Low clearances
- Simple to install
- Pre-plumbed and pre-wired heat pump cylinder

EASY SERVICING AND MAINTENANCE

- Remote system health checks
- Factory fitted magnetic and particle filter
- All service components to one side of the heat pump
- All hydraulic servicing can be carried out inside the property

WORLD-CLASS SUPPORT

- Dedicated heat pump engineers covering every corner of the UK
- First install assisted commissioning
- Full parts and labour warranty
- UK based contact centre 364 days a year

Benefits of working with Ideal.

At Ideal Heating we are committed to delivering the highest level of customer service. With more than 100 years' experience in the heating industry, we know how important confidence and trust are to our customers.

With a range of tools to help you grow your business, Ideal is on hand to ensure you have the support you need. Our dedicated customer service department is available 364 days a year.

We also have a team of expert engineers, fully trained to exacting standards, on hand to provide one-to-one advice on the road, over the phone or online ensuring you're fully supported, wherever and whenever you need.
