WARNING

Indicates a potentially hazardous situation which, if ignored, can result in serious injury or substantial property damage.

NOTICE

Indicates special instructions on installation, operation or maintenance, which are important to equipment but not related to personal injury hazards.

WARNING

Failure to follow instructions below can result in severe personal injury or damage if ignored.

- Instructions are for a qualified installer/ service technician.
- Read all instructions before proceeding.
- Follow instructions in proper order.

WARNING

For your safety, turn off electrical power supply at service panel before proceeding to avoid possible electrical shock hazard. Failure to do so can cause severe personal injury or death.

Control Module Replacement Kit for PERFORMANCE Products

Replacement Instructions:

1. Turn power the unit “OFF”.
2. For ease of replacement, remove one lead at a time from the old control module and attach to the same terminal on the new module.
3. Remove the 2 screws attaching the control module to the mounting bracket.
4. Attach the new control module to the bracket using the screws from the previous step or use the two screws provided in the kit if needed.
5. Turn power to the unit “ON”. The unit is now ready to be placed back into service.

NOTICE

To reduce confusion label each wire with the designation from the control module before removing.
