

## Technical submittal

Products: Dorchester DR-FC Evo 45

Project: Customer:

ustomer: Date:

- Full automatic condensing direct fired water heater
- Down firing, modulating burner
- Multiple temperature settings to enhance condensing performance
- Whisper quiet at <45dB(A)</li>@2m from flue terminal
- Inspection and clean out door for easy maintenance
- Suitable for LPG or natural gas
- Glass lined
- Electronic anode protection
- 36mg/KWh NOx emission, dry air free, European Class
   5. Maximum (at part load)
- 96% Building Regulations thermal efficiency gross
- XXL ErP load profile
- A ErP efficiency rating
- 386 litres storage capacity
- $\odot$  850l/h continuous output ( $\Delta T = 50^{\circ}C$ )
- $\bigcirc$  27 minute heat up time ( $\Delta T = 50$ °C)

			DD 565 45	
	Dorchester DR-FC Evo model	Units	DR-FC Evo 45

Plan View

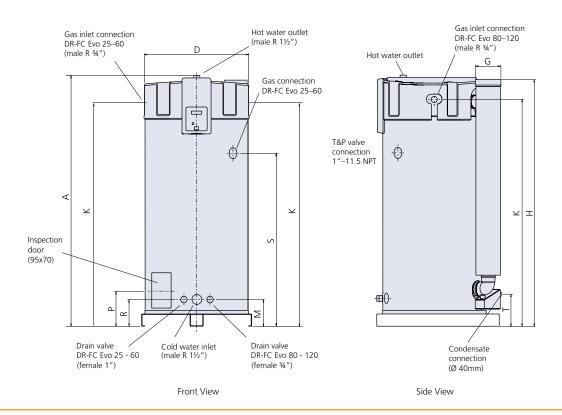

## **Clearances**

100 cm above top of water heater, 100 cm around controls and inspection doors. 50 cm around all other sides of water heater.

Note: Flue gas sampling point access must be restricted if the water heater is to be fitted in the corner of the room. If so, a loose sampling point adapter is available as an option, which can be fitting during installation at a more accessible position in the flue, as required.

## **Ring Base Option**

Models DR-FC Evo 25 to DR-FC Evo 60 inclusive are also available (as a special order) supplied fitted with a narrow galvanised steel ring base instead of a pallet base. In this configuration all height dimensions will be reduced by 95 mm for each applicable model.

	Α	С	D	E	F	G	Н	Нх	Ну	K	M	N	P	R	S	T
	Total height	Position on base	Water heater diameter	Depth	Width	Diameter for flue gas discharge	Height of flue gas outlet/air supply	x position flue gas outlet	y position flue gas outlet	Height of gas connection	Height of cold water inlet	Height of hot water outlet	Height of cleaning opening	Height of drain valve connection	Height of T&P valve connection	Height of condensation drain
