

SURF TO SCHOOL DAY

Dear School Principal,

You are reading this letter because a child in your school is wishing to seek your support to host a Surf To School Day at your school! Simply put, it is a 'surf and beach wear' themed 'spare change donation day' creating a fun atmosphere with the Aloha spirit.

Your students will have a great day showing how easy it is for Kids to Make a Difference – and how to **have fun and help along the way**.

SURF TO SCHOOL DAY started in 2014, when Winter Vincent, aged 9, ran a fundraiser for Waves For Water at his school Manly Village Public School, Manly Beach, Australia.

Waves For Water aims to deliver clean water solutions to those in need all around the world.

www.wavesforwater.org

Winter raised almost \$3000USD for water filters with his first fundraiser. He travelled with his family to the Mentawai Islands, Indonesia, to implement those filters, and it changed their lives.

Since that first trip Winter has been recognised for his work by the Governor General of Australia and received an Australia Day letter of thanks from the Australian Prime Minister for his work. Winter presents to schools, and was a keynote speaker for National Young Leaders Day 2016 on the topic "Kids Can Make A Difference".

His Surf To School Day initiative is a multi-school project, relying on the education, inspiration and networking of students and their communities. Since 2015 over 30 schools have been involved and over \$40,000USD has been raised.

It is a simple model – based on the 'pocket money donation day' and we hope that you will support the child who has approached you in their effort. More information can be found on <https://www.wavesforwater.org/programs/265-surf-to-school>

Your student may wish to promote the day through school and community channels. This may include a poster designed for Surf To School Day by artist Ben Brown, embedded in this letter.

Please contact the child or us if you have any questions and thanks once again for your support in helping kids make a difference. wintergkv@gmail.com

Kind regards, Winter & family
