DLC 5.1

Satco's next generation of high bay/low bay LED lamps deliver more on every level. Lumen output has been improved, meaning even better LED efficiency than previous generations. And the redesigned heat dissipation feature means a cooler running, longer lasting lamp. This is the lamp needed for the most difficult lighting situations—warehouses, gymnasiums, health clubs, factories and arenas—and it succeeds with up to 25,000 lumens of efficient LED light. These lamps are dimmable, meet DLC 5.1 requirements and last up to 50,000 hours, reducing maintenance and energy costs.
