THE INTERNATIONAL JOURNAL OF BLOCKCHAIN LAW

Since 2021, GBBC has released the International Journal of Blockchain Law (IJBL), an open access online journal written and edited by lawyers, designed to help business and non-legal communities better understand the world of blockchain and digital assets

14

Volumes

184

Authors

23

Unique
Jurisdictions

Phase 4: Harmonization & Implementation (Volumes XI–XIV)

Recent volumes reflect the implementation, refinement, and convergence of regulatory standards across major jurisdictions

Phase 3: Global Frameworks & Institutionalization (Volumes VIII–X)

Coverage shifted toward structured regulatory regimes (e.g., MiCA), emerging market participation, and the normalization of digital asset oversight globally

Phase 2: Comparative & Cross-Border Expansion (Volumes IV–VII)

The journal broadened geographically, emphasizing comparative law, licensing regimes, custody, and integration into traditional financial systems

Phase 1: Foundations & U.S. Dominance (Volumes I–III)

The early volumes concentrated on U.S. securities law, enforcement posture, and the fundamental legal characterization of digital assets
