Diogo Rau

Executive Vice President and Chief Information and Digital Officer

Eli Lilly and Company

Diogo Rau (he/him/his) is executive vice president and chief information and digital officer of Eli Lilly and Company. He leads Lilly's information technology, cybersecurity, digital health, and advanced analytics and data science functions.

Diogo joined Lilly in May 2021. Prior to joining Lilly, he led information technology for retail and online stores at Apple, Inc. During his 10 years at Apple, he led the development and implementation of the technology supporting the Apple Online Store and Apple retail stores, including the e-commerce platform, mobile point of sale, the Apple Store App and systems used by store team members.

Prior to joining Apple, Diogo was a partner with McKinsey & Company, where he led the North America IT organization and governance practice. Diogo began his career as a consultant at A.T. Kearney and later founded GiftGateway, a software company that brought rewards and recognition online.

Diogo graduated from Stanford University with a bachelor's degree in computer science and a master's degree in industrial engineering and engineering management.
